MAJOR CRIME UNIT

Several Evidence Technicians have been identified as Major Crime Evidence Unit members. These technicians have shown high proficiency in their work. They can be assisted by additional evidence technicians if necessary, but they take the lead in handling evidence collection and processing at major scenes.

The following are the members of the Major Crime Unit:

Anderson (retired)	Peterson
DiFatta	Porta
Hostetler (retired)	Riley
Mares	Vitello

The Major Crime Unit is on call for incidents where extensive and more detailed evidence work is needed at the scene.

With succession planning, the Evidence Technician supervisor must look into locating replacements for the Major Crime Unit. Upon identifying the alternates, the supervisor must enroll them in the necessary training to be proficient with major crimes.

The following members were added to the Major Crime Unit:

Kukla	Bending
Fernandez	Raya
Mokrzycki	Prafke
Oplawski	Soto
Skupien	

FORENSIC INVESTIGATIONS UNIT

The following are assigned to the MERIT Forensic Investigations Unit to work closely with the DuPage County Sheriff's office on major crimes:

Hostetler (retired)
Porta
Riley
Peterson

This has benefited the Department through the additional training and experience they received. In 2022, these officers were called out and responded to eight crime scenes throughout DuPage County.

FIRE/ARSON INVESTIGATORS

The following personnel are certified Fire/Arson Investigators who work closely with the Addison Fire Protection District on major or suspicious fires:

DiFatta

Several additional basic fire investigators are available for assistance and/or to determine if additional expertise is needed.

Officer DiFatta is a Metropolitan Emergency Response & Investigation Team (MERIT) Fire/Arson Task Force member. This has benefited the Department through additional training and experience he received. In 2023, Officer DiFatta received no callouts, but responded to the monthly training, if manpower permitted.

TRAINING

The Career Track Training Plan for Evidence Technicians and Major Crime Scene Evidence Technicians is as follows:

Evidence Technicians Assigned to Patrol

- 40-hour Basic Evidence Technician Program
- Death Investigation Seminar
- Developing Latent Fingerprints
- Footwear Impression Workshop
- Arson Investigation: Basic Crime Scene Skills
- Basic Photography

Major Crime Scene Evidence Technician

- International Association for Identification Educational Conference
- Death Investigation
- Bloodstain Pattern
- Shooting Incident/Trajectory Reconstruction
- Illinois Property and Evidence Manager's Association Conference

The Major Crime Scene Evidence Technician training schedule is currently under review due to the unavailability of the current courses provided by Northwestern.

Arson Investigator

- Fire Investigation 1
- Fire Investigation 2
- Fire Investigation 3

IN-SERVICE TRAINING

All technicians complete the annual Evidence Technician exam via PowerDMS. The test covers many areas of crime scene processing, including crime scene investigation, evidence collection, evidence processing, and photography. The information is taken from training and the Department's policies and procedures. All Evidence Technicians passed the written test.

In the winter of 2023, all Field Services Evidence Technicians attended the in-service training class that was presented by Sergeant Biles, Sergeant Riley, Officer Peterson, Officer Porta, Officer Vitello and Officer Hostetler. The training covered the following topics:

- Processing a recovered vehicle
- Collection and processing bloody clothing from a hospital or crime scene
- Death investigations (natural and suspicious)
- Footwear impressions
- Axon capture usage
- Collecting digital evidence
- Collecting DNA

In the fall of 2022, Evidence Technicians had buried two hogs in preparation for exhumation training at a later date. On June 1, 2023 the Police Department hosted the DuPage MERIT FIU for that exhumation training. The training was attended by at least thirty different members.

OUTSIDE TRAINING

In 2023, Evidence Technicians attended several continuing education courses hosted by the Northeast Multi-Regional Training (NEMRT) and the Rocky Mountain Forensic Training Center. MERIT FIU members were also able to attend some monthly MERIT FIU training classes. Major Crime Evidence Technicians Mares and DiFatta attended the International Association for Identification (IAI) conference in National Harbor, Maryland, on August 20, 2023.

NEW EQUIPMENT

During 2023, the following equipment was purchased for the Evidence Technicians:

1. Small "mouse" boxes
2. Mobile Major Crime kit
3. Replacement batteries for Major Crime camera
4. New Nikon Major Crime camera (mirrorless)

2023 GOALS AND STATUS

1. Select another Evidence Technician trained in Fire/Arson Investigation.

Officer Porta was also assigned to the Fire/Arson Investigations team as he had already been previously trained, and it did not affect manpower.

2. Restructure the Evidence Technician and Major Crime course curriculum due to the discontinuation of Forensic Science Studies at Northwestern.

Officers will attend a mixture of NEMRT, Rocky Mountain, and International Association for Identification classes.

3. Send Evidence Technicians and Major Crime Evidence Technicians to the following conferences: International Association for Identification, Illinois Property and Evidence Manager's Association, and Illinois Homicide Investigators Association.

Officer Peterson, Officer Mares, and Officer Vitello attended the Illinois Property and Evidence Manager's Association Conference. Due to manpower restrictions, no officers could attend the Illinois Homicide Investigators Association conference.

4. Increase in-house and quarterly training for Evidence Technicians.

There were various training assignments completed. This area will be a priority for 2024 as many new Evidence Technicians are certified and were added to the Major Crime Unit.

5. Continue to rotate alternate Evidence Technicians to the Major Crime Evidence Unit.

Multiple new officers and a CSO were added to the Major Crime Unit.

6. Continue identifying and certifying future Evidence Technicians in the 40-hour Evidence Technician class.

Ten (10) new officers were certified as Evidence Technicians.

2024 GOALS

1. Send two (2) to four (4) officers to the International Association for Identification Educational Conference.
2. Create quarterly in-house training scenarios for the new Major Crime members.
3. Include newer members to Major Crime callouts to develop skills and experience.
4. Add a new member to MERIT FIU.

5. Have newer Evidence Technicians attend monthly MERIT FIU trainings and possibly respond to FIU callouts with current FIU members.
6. Reorganize the Evidence Technician's truck and confirm with Public Works the new vehicle set up.
7. Order the necessary study material for Evidence Technicians to study and pass the I.A.I. written test.
8. Have at least one officer pass the test and become certified as a Crime Scene Investigator under the I.A.I. prerequisites and requirements for certification.

SIGNIFICANT EVENTS

There were many incidents that required evidence processing, some as simple as photographing injuries or damages. Others took many hours of processing to collect latent fingerprints, latent footwear impressions, and biological and trace evidence. Those scenes included, but were not limited to violent Domestic; Sexual Assaults/Abuse; Robbery; Damage to Village Property; and Residential, Commercial, Industrial, and Vehicle Burglaries.

Death investigations include homicide, accidental, suicidal, or natural. Numerous death investigations were processed throughout 2023.
