5/10/2023	12	7
6/14/2023	2	2
8/9/2023	9	4
9/13/2023	4	3
10/11/2023	7	2
11/8/2023	5	4
12/13/2023	4	2

UNUSUAL OR SIGNIFICANT EVENTS

With the introduction of the web-based version of the RedCheck reviewing software, officers can now log in to the program on any PC, iPad or tablet to review real-time video of the intersection for incidents under investigation. Officers also have the ability to

download the video for evidence. Throughout 2023, the Investigations Section used this software to identify suspect vehicles; and patrol officers used it to view traffic crashes at the intersection.
