In cases where a major portion of the water consumed by a single-family residential user is not discharged into or does not reach the sanitary sewer system, the City may provide an annual sewer service credit. To be eligible for this credit, water consumed and not discharged into the sanitary sewer system will need to be metered by a separate meter and reported to the City's Finance Department no later than December 1<sup>st</sup> of each year. A fee of \$100 for initial inspection of the installation and computing the sewer service credit for the first year is due upon application to the program. After the first reading, an annual fee of \$100 will be deducted from the credit. Participation in the program may be terminated if, during any year, the fee for computing the sewer service credit and administering the program should equal or exceed the resulting credit total.

You can report usage in the following ways:

1. Fill out the form by visiting [www.bettendorf.org/sewercredit](http://www.bettendorf.org/sewercredit)
2. Email your reading along with your address information to [revenue@bettendorf.org](mailto:revenue@bettendorf.org)
3. Log in to your account at [municipalonlinepayments.com](http://municipalonlinepayments.com) and use the "Contact us" button to submit your reading.

I acknowledge that I have read and understand the requirements of the Sewer Service Credit Program. Furthermore, I understand that to receive an annual credit, I must submit a valid meter reading before December 1<sup>st</sup> following the watering season.
