

Mini Recycling Center

Grade Level: K - 6th

Time needed: 45 minutes

Supplies: Recycling center conveyor, "Agatha's Feather Bed" book, recyclable materials

Location: Indoors

Objective: Students will learn how materials are converted into something new and how recycling centers work.

The book "Agatha's Feather Bed" will be read, then students will use a kid-powdered conveyor to simulate how recyclable materials are sorted in a recycling facility.
