

PUBLIC-PRIVATE AGREEMENT

THIS PUBLIC-PRIVATE AGREEMENT (“Agreement”) is made and entered into in Warren County, Indiana, as of the 18th day of September, 2023 (“**Effective Date**”), by and between JOINK, LLC (“**Joink**”) a Delaware limited liability company, with a place of business located at 1362 Wabash Avenue, Terre Haute, Indiana 47807 and WARREN COUNTY, INDIANA, an Indiana County Government, with a place of business located at 125 N. Monroe St., Williamsport, Indiana 47993, and its successors and assigns (“**County**”), (each a “**Party**” and collectively the “**Parties**”).

RECITALS

WHEREAS, County determined that the provisioning of High-Speed Broadband Services within Warren County (the “**Project**”), as defined below, to residents and businesses is a critical public utility need that directly impacts the vitality and quality of life within Warren County; and

WHEREAS, the COVID-19 pandemic has manifested the importance of High-Speed Broadband Services for employment, education, consumerism, telemedicine and other resident needs to successfully function and compete in today’s society; and

WHEREAS, local governments across the country have recognized that the provision and delivery of High-Speed Broadband Services will require the intervention and partnership of local governments with private providers to achieve delivery of high speed broadband service and ensure that no portion of the community is underserved or left behind; and

WHEREAS, County has adopted the provisions of Indiana Code 5-23 regarding the power of government bodies to utilize public-private agreements to procure public facilities (collectively, the “**P3 Statute**”);

WHEREAS, the P3 Statute authorizes County to enter in an agreement for the acquisition, planning, design, development, reconstruction, repair, maintenance or financing of any public facility on behalf of County (a “**Public-Private Agreement**”);

WHEREAS, County determined it is in the public interest to procure the Project through the execution and performance of a Public-Private Agreement.

WHEREAS, County issued a request for proposals (“**RFP**”), attached hereto and incorporated by reference herein as Exhibit A, from service providers to deploy, operate, and maintain a broadband network; and

WHEREAS, Joink responded, attached hereto and incorporated by reference as Exhibit B, and proposed to extend its all-fiber optic network solution from where it currently terminates in Vermillion County to Pine Village, State Line, West Lebanon, Independence, in addition to homes directly passed along Joink’s fiber routes (see column “Proposed Job Location” in Exhibit B), and, at Joink’s expense, Williamsport, as depicted on the maps attached as Exhibit C, and will provide High Speed Broadband Services to County residents and businesses (collectively, “**Consumers**”) amounting to approximately two thousand and eight-eight (2,088) Addressable

Locations within Warren County (“**Service Area**”), attached hereto and incorporated by reference herein as **Exhibit C**; and

WHEREAS, using the published criteria, the RFP review committee carefully reviewed all submitted proposals and ranked Joink as the top proposer and the County accepted Joink’s Proposal and identified Joink as the strategic County partner with which to conduct negotiations given that Joink possesses the requisite experience, expertise and financial strength to acquire, plan, design, develop, construct, repair, maintain, or finance the Project; and

WHEREAS, the Parties have negotiated in good faith to develop acceptable terms and wish to enter into a binding Agreement defining the objectives, duties, roles, and responsibilities of each party with respect to extending the backbone fiber network of Joink to provide High Speed Broadband Services to the Consumers within Warren County.

NOW, THEREFORE, for and in consideration of the mutual benefits accruing to the Parties hereto, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

1. **Network Extension Work.** Joink agrees to undertake, with County input, the necessary design, construction, installation, and maintenance of equipment and infrastructure to extend its existing fiber optic network to Consumers within Warren County (“**Network Extension Work**”). The proposed fiber network will provide Consumers with High-Speed Broadband Services capable of a minimum of symmetrical 300Mbps and maximum of at least symmetrical 1,000Mbps (“**High-Speed Broadband Services**”), subject to Consumer preferences. The Network Extension Work shall be built as geographically depicted in **Exhibit B** and in the order outlined in **Exhibit E** and shall be referred to as the project area (“**Project Area**”). Joink shall utilize OFS (Allwave or Allwave+) or Corning (SMF28e) glass in its trunk lines and drop (or Commscope Multiport Service Terminal (“MST”) cables. Joink shall utilize underground construction and all fiber cable (“Cable”) shall be placed in conduit to construct the optical fiber trunk lines. If Joink proposes to utilize aerial construction beyond that noted in **Exhibit B**, it must receive prior written approval from County. No wireless backhaul service shall be utilized for the system.

2. **Term.** Unless this Agreement is terminated in accordance with the provisions contained herein, or extended by mutual agreement of the parties, their successors or assigns, the Term of this Agreement shall begin on the Effective Date and continue until thirty (30) years after the Effective Date. Joink commits to providing the resulting service for at least five (5) years from activation of the entire Project Area and consistent with Section 19. No provision of this Agreement shall survive the termination of this Agreement subject to Sections 19, 22, 24, 25, 26, 27, 28, and 29 of this Agreement and as otherwise expressly stated herein.

3. **Completion Date.** Joink will use reasonable efforts to substantially complete the Network Extension Work for addressable locations within twenty-four (24) months of the Effective Date of this Agreement. A proposed timeline (“**Timeline**”) of the Network Extension Work and agreed upon by the Parties is attached hereto and incorporated by reference herein as **Exhibit E**.

4. **Project Performance and Metrics.** Joink will develop, with County input, high-level designs, construction drawings, timelines, performance goals, and other project implementation information (collectively, “**Project Information**”). Joink will provide Project Information to County prior to the Network Extension Work. Once Network Extension Work has commenced, Joink shall provide County with quarterly performance updates and metrics related to Project Information (“**Metrics**”) as they relate to Joink’s adherence to the Timeline and until completion of the Project. Metrics shall be reported in writing and shall include, but are not limited to, a summary of the tasks detailed in the Timeline (**Exhibit E**) and shall indicate the status (“ahead of schedule”, “on schedule”, or “behind schedule”) for each task. For each task that is behind schedule according to the Timeline, Joink shall indicate the extent to which the task is behind schedule and its recovery plan to remedy the delay, subject to Section 27 of this Agreement. Joink shall make itself available on a frequency no less than weekly to discuss the status of remedying the delay.

5. **Contribution Amounts.** In consideration of the Network Extension Work, County shall pay Joink Four Million Eighteen Thousand Eight Hundred Forty-Five Dollars and No Cents (US\$4,018,845.00) (“**County’s Contribution Amount**”). It is anticipated that up to One Million Five Hundred Thousand Dollars and No Cents (US\$1,500,000.00) of County’s Contribution Amount will come from available American Rescue Plan Act (“ARPA”) funds. The awarded ARPA funds require Joink to ensure the Project meets ARPA requirements as of the Execution Date of this Agreement. It is anticipated that an additional amount up to One Million Five Hundred Thousand Dollars and No Cents (US\$1,500,000.00) of County’s Contribution Amount will come from available Indiana Economic Development Corporation (“**IEDC**”) funding and will require Joink to provide any information necessary to fulfill grant reporting information. Joink shall provide the remaining funding required to complete the project, which is estimated to be Eight Million Four Hundred Forty-Eight Thousand Four Hundred Sixty-Four Dollars and No Cents (US\$8,448,464.00) (“**Joink’s Estimated Contribution Amount**”). The actual funding required by Joink may be less than Joink’s Estimated Contribution Amount based on Consumer subscription rates. County shall pay Joink in periodic installments in accordance with the payment schedule attached hereto and incorporated by referenced herein as **Exhibit D** (the “**Payment Schedule**”). The Contribution Amount shall constitute an all-inclusive, total sum for Network Extension Work provided by Joink under the terms of this Agreement, subject to customary availability and deployment in the market, as well as applicable legal and regulatory requirements. Payments of County’s Contribution Amount shall be calculated based upon the payment milestones achieved to the satisfaction of County and conforming to the Project as approved, during the period set forth in **Exhibit D**. After completion of each milestone, Joink shall prepare a written invoice and submit same to County together with any other supporting documentation reasonably requested by County (collectively, the “**Payment Application(s)**”). Within thirty (30) days after County’s receipt of each Payment Application, County will pay portions of the County’s Contribution Amount then due with immediately available funds by wire transfer to an account specified by Joink as listed in **Exhibit D**. In the event that County disputes any amount set forth on a Payment Application, County shall notify Joink in writing setting forth the amount withheld from such Payment Application and a reasonable description of the rationale for the withholding. Joink shall promptly cure the underlying cause for any such withholding and, upon curing such underlying cause, may include amounts of County’s Contribution Amount with respect thereto with the next Payment Application, unless otherwise agreed upon by the Parties in writing.

6. **Responsibilities of Joink.** Joink represents and warrants that it shall:

(a) develop, with County input, a proposed fiber service route to maximize coverage of unserved, underserved, and key growth areas in Warren County and identified in **Exhibit B**;

(b) shall collaborate with County regarding the installation method, route, location priority schedule, and final design of the Project;

(c) perform the Network Extension Work to ensure that all the addressable locations identified in **Exhibit B** have access to Joink services in accordance with the Project Information;

(d) provide an experienced and able management team to design, build, operate, and maintain the proposed Network Extension Work and resulting fiber network;

(e) perform the Network Extension Work in a safe and professional workman-like manner and in accordance with all applicable federal, state, county, and local laws, ordinances, orders, rules, and regulations in effect on the date hereof;

(f) take reasonable precautions to protect the persons and property of others on or adjacent to Network Extension Work sites from damages, loss, injury, interference, or nuisance resulting from the Network Extension Work and to restore any property areas to a condition materially consistent with the condition immediately prior to the Network Extension Work and/or in compliance with any applicable laws, ordinances, rules and regulations. In case of any disturbance of pavement (whether concrete, asphalt, or other surface material), curb, sidewalk, driveway, apron or other surfacing, Joink shall, at its own cost and expense, and in a timely manner, replace and restore all paving, sidewalk, driveway, landscaping, or surface of any area disturbed, in as good condition as before said work was commenced and in accordance with generally applicable standards for such work. In case of any disturbance of grass or topsoil, Joink shall, at its own cost and expense, and in a timely manner, provide seed and straw to all areas disturbed to reasonably restore the grass or topsoil to as good condition as before said work was commenced and in accordance with generally applicable standards for such work. However, unless otherwise negligent and/or failing to follow all laws, ordinances, rules and regulations, Joink shall not be responsible for damages caused to unmarked underground infrastructure, whether it be public or private, or be held responsible for related or incidental damages;

(g) obtain all necessary federal, state, county, and municipal permits, licenses, and approvals prior to the commencement of the Network Extension Work;

(h) pay for all services, labor, materials, and other costs and expenses incurred in connection with the Network Extension Work;

(i) make financial investments to maintain and upgrade fiber network throughout the Term of this Agreement and to provide services and service quality standards that are equal to or better than what Joink or its affiliated entities provide in other jurisdictions in Indiana and surrounding States throughout the duration of the Term;

(j) develop performance goals and metrics for completion of Network Extension Work. Joink shall provide to County confidential, on-line reports detailing Network Extension Work progress and accomplishment of performance goals on a quarterly basis consistent with Section 4;

(k) cause all of its contractors, subcontractors, representatives and agents performing the Network Extension Work to comply with all requirements of this Section 6, as applicable;

(l) provide project closeout documentation, including, but not limited to the Notice of Completion, upon completion of Network Extension Work as set forth herein and in **Exhibit B**;

(m) reasonably pursue and participate (when economically feasible and operationally practicable) in federal, state, local, and private grant funding opportunities, at the reasonable request of and in conjunction with County;

(n) provide rates comparable to what Joink or its subsidiaries currently offer to any of its other customers and subscribers and offer rates for High-Speed Broadband Services to Consumers that are the same non-promotional residential retail rates in the Project Area that Joink or its subsidiary entities offer to any of its other customers or subscribers for the same tiers of service or better during the Term of this Agreement subject to Sections 11 below;

7. Responsibilities of County. County represents and warrants that it shall:

(a) provide County's Contribution Amount described in Section 5 of this Agreement to assist with Joink's Network Extension Work;

(b) assist to expedite the permitting process, where possible and consistent with state and federal law, for use of public right of ways and zoning permits for the Network Extension Work and assist Joink in acquiring such permits;

(c) identify and consult with all applicable County stakeholders including when applicable County Engineer, prior to execution of this Agreement;

(d) provide Joink with all County-specific ordinances, rules and regulations;

(e) provide County-specific geospatial datasets (where available), including parcel and address data to Joink free of charge;

(f) permit Joink's permitting and construction management and review at costs or fees that shall not exceed County's actual and direct expenses (inclusive of the actual costs of any reasonable and necessary outside engineering or legal consultant expenses) related to permitting, reviewing construction drawings, field inspection, construction management work, and any necessary public safety expense;

(g) reasonably pursue and participate when economically feasible and operationally practicable in federal, state, and private grant funding opportunities, at the reasonable request of and in conjunction with Joink.

8. Pre-Construction Notices. Joink shall provide County an opportunity to review and comment on any notices sent to Consumers prior to the start or concerning construction of the network.

9. **Installation and Service Activation.** Joink shall waive all installation and service activation fees for all residential, institutional, and commercial Consumers with drops of up to one hundred (100) feet from a Joink service line in the closest public rights-of-way or easement to the closest exterior of the structure for a period of two (2) years from completion of Passing. These locations are denoted as “Free Installation” in column “Install Bucket” in **Exhibit C.** For locations not passed within one hundred (100) feet, Joink’s installation fee shall not to exceed Fifteen Dollars and No Cents (US\$15.00) per linear foot, beyond the first one hundred (100) feet (“Additional Distance”), to connect a Consumer premise for a period of two (2) years after Project completion. These locations are denoted with an approximate installation fee range in column “Install Bucket” in **Exhibit C.** Any installation occurring two (2) years after issuance of the Notice of Completion will cost Two Hundred and Fifty Dollars and No Cents (US\$250.00) to the Consumer within one hundred (100) feet and Additional Distance will not exceed Fifteen Dollars and No Cents (US\$15.00) per linear foot, adjusted for inflation, with a maximum escalator of ten (10) percent per year for each annual period after the issuance of the Notice of Completion. The installation terms are attached hereto and incorporated by reference herein as **Exhibit F.** The Network Extension Work shall be performed in such a way that fiber is lit, or in the case of MSTs, an available port is lit, for every Passing such that no network design, grooming, capacity planning, or upstream splicing or electronics are required after the Notice of Completion has been issued. A “Passing” is defined as a location address included in the address appendix of **Exhibit E.**

10. **Installation Credit Plan.** For installations greater than one hundred (100) linear feet to a Consumer, refer to the Installation Credit Plan attached hereto and incorporated by reference as **Exhibit G.** The Installation Credit Plan includes a total credit of One Million Three Hundred Seventy-Seven Thousand Fifty-One Dollars and No Cents (US\$1,377,051.00) (“**Credit Amount**”) to fund installations greater than one hundred (100) linear feet and will be dispersed in a manner to reach the maximum number of Consumers. The Installation Credit Plan shall be available to any Consumer that has sought the Indiana Connectivity Program (“**ICP**”) Grant. County shall help identify and inform Consumers of applicable grants, timelines, and methods for seeking state funding. Funds from the Installation Credit Plan shall be awarded on a first come, first served basis until the Credit Amount is exhausted.

11. **Reconnect Fees.** Except for reasons of non-payment, Joink shall not assess any reconnect charges should a Consumer disconnect services and choose to later reconnect services within two (2) years following the issuance of the Notice of Completion.

12. **Rate Freeze Period.** Joink shall maintain retail non-promotional residential rates in the Project Area, for the tiers of broadband service in effect on the date of initial network activation in the Project Area, for a period of twenty-four (24) months following the issuance of the Notice of Completion (“**Rate Freeze Period**”) unless otherwise provided for in this Section 12. Six (6) months prior to the expiration of the Rate Freeze Period, Joink shall send written notice to County identifying the current rates for service. Joink shall maintain the same non-promotional residential retail rates in the Project Area that it offers to any of its other customers and subscribers for the same tiers of service. The tiers of broadband service for 2023 that apply to the Rate Freeze Period include:

300 Mbps upload x 300 Mbps download for US\$69.00 per month
500 Mbps upload x 500 Mbps download for US\$99.00 per month

1000 Mbps upload x 1000 Mbps download for US\$129.00 per month

13. Consumer Service Standards. Joink shall design the network to ensure reliable service with ninety-and point nine (99.9) percent uptime with consideration of environmental factors. Joink shall monitor and administer the Internet assets twenty-four (24) hours a day, seven (7) days a week, three hundred sixty-five (365) days per year. Any repairs shall be dispatched out of Joink's Terre Haute headquarters. Joink will be solely responsible for providing High-Speed Broadband Services to Consumers under its own brand. County will have no authority or responsibility for fielding Consumer inquiries, addressing customer concerns, or otherwise with respect to Joink Consumers within Warren County. County will have no responsibility for network upgrade costs or other costs to maintain or enhance the provision of services to such residential and/or business Consumers, beyond those defined in this Agreement under Network Extension Work.

14. RESERVED.

15. Williamsport Build-Out. Joink shall, at its own expense, extend its all-fiber optic network solution and provide High Speed Broadband Services to Williamsport, Indiana. Joink shall prioritize rural and unserved areas of the Project ahead of the Williamsport build-out.

16. Warren County Businesses. Joink shall host two (2) vendor fairs to solicit participation from Warren County based businesses. Joink shall utilize Warren County businesses where it is commercially reasonable to do so.

17. FCC Affordable Connectivity Program. Joink shall participate and offer the Federal Communication Commission's ("FCC") Affordable Connectivity Program ("ACP"), subject to the FCC accepting Joink's application, enrolling Joink, and ability to award program funding.

18. Economic Development Activity. Joink shall offer connectivity to projects classified as economic development, as determined by the Warren County Local Economic Development Organization ("WCLEDO"). These economic development projects will qualify for non-recurring installation charges at pricing not to exceed Fifteen Dollars and No Cents (US\$15.00) per linear foot after the first one hundred (100) feet, for three (3) years with a maximum escalator of ten (10) percent per year for six (6) years. Monthly service fees shall not exceed One Thousand Dollars and No Cents (US\$1,000.00) per month per Consumer site for a gigabit private transport to any on-net Joink middle-mile or wholesale carrier partner or data center where Joink has facilities (see **Exhibit J** attached hereto and incorporated by reference herein). Monthly internet service fees shall not exceed the lesser of the published package rates or One Dollar and No Cents (US\$1.00) per Mbps. A County initiated network extension shall not exceed Fifteen Dollars and No Cents (US\$15.00) per linear foot for three (3) years with a maximum escalator of ten (10) percent per year for six (6) years.

19. Fiber for County Use. As part of the Network Extension Work, Joink shall offer services to County for proprietary governmental purposes, economic development, and public safety services. This offering includes reserving one (1) twelve (12) fiber ribbon (or one (1) twelve (12) fiber buffer tube in the case of loose buffer tube fiber) as designated in **Exhibit B** for County's sole and exclusive use and control. The County may use and control these fibers in perpetuity, so

long as the fibers are utilized for the County's own non-commercial use (except as authorized in Section 20). All splicing and other maintenance shall be performed by Joink in accordance with the Fiber Maintenance Agreement ("**Maintenance Agreement**") attached hereto and incorporated by reference herein as **Exhibit K**. The Maintenance Agreement fee shall be waived on a pro-rata (route miles and months of the year, not strand miles) basis when all of these fibers are not lit by the County at any point during the period of twenty (20) years following the issuance of the Notice of Completion. If, at any time, the County elects to not use these fibers and not pay the Maintenance Agreement fee, it may cancel the use of and return the use of these fibers onto Joink in a form substantially similar to **Exhibit L**, attached hereto and incorporated by reference herein. A map of the fiber available for County use is depicted in **Exhibit C**.

Joink shall offer lit fiber (limited to internet and/or ethernet transport between locations within the County) to County, at no additional cost to County, for a period of five (5) years following the issuance of the Notice of Completion. Six (6) months prior to the expiration of the five (5) years, Joink shall send notice to County identifying the current rates for service.

20. Future Expansion of Broadband Services. County and Joink shall agree to mechanisms that enable the expansion of broadband services in Warren County. Joink shall actively work to identify and write grants that further expand Joink's broadband deployment in Warren County. When County identifies potential opportunities for broadband expansion, County shall send Joink a brief summary of the opportunity, and Joink shall endeavor to respond within ten (10) business days regarding Joink's initial assessment of the grant opportunity and its interest in pursuing the opportunity identified by County. County may receive competitive offers and provide Joink with the right of first refusal to match said offer. If Joink declines, County may use its fiber as described in these terms. As part of a joint effort for future expansion of broadband services in Warren County, County and Joink shall meet quarterly to assess expansion opportunities and necessary resources to achieve expansions. Joink shall work with County to seek collaboration with rural electric membership cooperatives ("**REMC**"). Joink shall commit a minimum of Three Thousand Five Hundred Dollars and No Cents (US\$3,500.00) per single family home (passing and connection) and a minimum of Five Thousand Nine Hundred Seventy Dollars and No Cents (US\$5,970.00) for a commercial passing and connection for future expansion of network toward the goal of extending the fiber-optic network to one hundred (100) percent of Consumers.

21. RESERVED.

22. PILOT. The Parties agree to make best efforts to execute a Payment in Lieu of Taxes ("**PILOT**") agreement to provide revenue to the County for further development of its broadband expansion efforts. The parties will make best efforts to negotiate and execute an agreement to effectuate a PILOT structure consistent with Indiana law and supported by personal property abatements by applicable jurisdictions to include any municipality in Warren County that chooses to support the PILOT through adoption of a personal property tax exemption of Joink assets utilized to provide broadband services in Warren County. In no case will the fees collected under PILOT begin to accrue earlier or at a rate higher than what Joink would have paid in the abated Taxes related to the PILOT.

23. Other Services. Joink shall provide connectivity under the terms consistent with those

Joink offers in its other markets to providers of cellular, Internet of Things, and other mobility services. Joink shall notify these providers of its extended coverage in Warren County. Joink shall not unreasonably withhold access to its fiber infrastructure and services in Warren County. Joink shall provide the same rates in Warren County as it does across the rest of its footprint. For services Joink does not already provide across its footprint but are necessary to improve, expand, and/or enhance connectivity in Warren County, Joink shall provide such services on a not-to-exceed price based on the rate schedule attached hereto and incorporated by herein reference as Exhibit H.

24. Ownership. Exclusive of any rights granted to the County as may be described in Section 19, Joink shall retain sole ownership and rights in its existing fiber network and any additions to the fiber network as contemplated by the Network Extension Work and this Agreement, including all materials, equipment, supplies, and facilities constructed and deployed in connection with the Network Extension Work. The entire fiber network will remain with Joink, and County shall, other than the conditions described in this Agreement, have no interest therein. If Joink undergoes a change in control, substantial sale of assets, acquisition, material change in management, or dissolution, it must provide notice in writing to County. Joink reserves the right to modify the terms and conditions, data usage, speeds, and pricing for any of Joink's services subject to the Rate Freeze Period in Section 12 herein.

25. Confidentiality. Subject to the requirements of the Indiana Public Records Act, and as may be lawfully permissible, County and Joink agree to keep confidential and protect against disclosure (specifically excluding this Agreement) any and all valuable or potentially valuable information that is marked confidential, whether communicated in written, electronic or other form prior to or after execution of this Agreement, including, but not limited to, Consumer information and financial, commercial, marketing, sales, technical, or scientific information (including without limitation all patents, copyrights, trademarks, service marks, trade names, trade dress, and applications relating to same, trade secrets, software, code, inventions, know-how, and similar information), and any and all other material, documents, and data related to the business activities of the other party (collectively, "**Confidential Information**"). Notwithstanding the foregoing, the Parties may disclose Confidential Information to their lawyers, accountants, other professional advisors, and lenders on a confidential basis, and as required by law, regulation or other legal rule or order. County hereby covenants and agrees not to duplicate, use, or disclose, in whole or in part, any Confidential Information provided by Joink without prior written consent from Joink. Notwithstanding, County may disclose Joink data related to the Network Extension Work to private or public entities for the sole purpose of applying for and/or securing funding or grants, provided that Joink consents in writing, which consent shall not be unreasonably withheld or delayed.

26. Indemnification. Joink covenants and agrees at its expense to pay and to indemnify, protect, defend, and save County, its elected officials, and its officers, agents, and employees (the "**Indemnitees**") harmless of, from and against, any and all claims, damages, demands, expenses (including, without limitation, reasonable attorneys' fees) and liabilities relating to bodily injury or property damage resulting directly or indirectly from Joink's (and/or any affiliate's thereof) performance pursuant to this Agreement or failure to perform pursuant to this Agreement unless such claims, damages, demands, expenses or liabilities arise by reason of the negligent act or omission of County, or other Indemnitees. However, nothing contained in this Agreement shall be

construed as creating either a joint venture or partnership relationship between County and Joink or any affiliate thereof.

27. Insurance. Joink shall maintain insurance in accordance with the insurance requirements attached hereto and incorporated by reference herein as **Exhibit I.** Prior to performing any Network Extension Work, and at any time upon the request of County, Joink shall provide County with certificates evidencing compliance with all such insurance requirements.

28. Performance Bond. Joink shall obtain and deliver to County evidence that it has obtained a performance bond in the amount of Two Hundred Thousand Dollars and No Cents (US\$200,000.00) for the construction of the Project and Network Extension Work in form and substance acceptable to County's legal advisor, such approval to not be unreasonably withheld, conditioned, or denied.

29. Use of Either Party's Name; Joint Marketing. County acknowledges that all goodwill associated with Joink's name and logo are, and shall remain, the sole property of Joink, and no rights are conferred upon County to use the same without the prior written consent of Joink, which consent shall not be unreasonably withheld or delayed. Joink acknowledges that all goodwill associated with County's name and logo are, and shall remain, the sole property of County and no rights are conferred upon Joink to use the same without the prior written consent of County, which consent shall not be unreasonably withheld, conditioned, or delayed. The Parties shall cooperate in joint marketing efforts utilizing the marketing resources and goodwill of each party to promote the High-Speed Broadband Services made available to Consumers as a result of the Network Extension Work. Except as otherwise mutually agreed to by the Parties, each party shall bear its own expenses without contribution in connection with such joint marketing efforts.

30. Authority. County and Joink represent and warrant to the other that it is not, by law or by agreement with others, prohibited from entering into this Agreement, that each party has obtained any necessary approvals or consents in advance of executing this Agreement, and that the persons executing this Agreement on behalf of each party are authorized to execute and deliver this Agreement on behalf of such party.

31. Event of Default; Remedies. Unless otherwise required by law, in the event that either party breaches a material provision of this Agreement, which shall constitute an "**Event of Default**" under this Agreement, the non-defaulting party shall give written notice to the defaulting party setting forth the nature of the default ("Notice of Default"). The defaulting party will have thirty (30) days following receipt of the Notice of Default to cure such Event of Default. If the defaulting party fails to cure the Event of Default within the cure period (which shall be extended in cases where the default is of the nature that it cannot reasonably be cured within such thirty (30) day period), the non-defaulting party may terminate this Agreement for cause under this Section by written notice to the other party and may exercise its legal rights and remedies as a result of such Event of Default. During the term of this Agreement, each party, and their successors and assigns, has the right to enforce this Agreement and any provisions in law and or equity by seeking monetary damages, injunction, specific performance, or other legal and equitable relief without prejudice to any other rights or remedies such party may have at law or in equity for breach of this Agreement. In addition to discussions related to recovery of timeline, County may request, and unless an exception is agreed upon or a force majeure condition exists, Joink shall provide,

performance credits to the overall project, as outlined below. Performance credits listed below shall accrue throughout the construction timeline and will be applied to the final Joink request for payment unless project is completed by May 1, 2025. Project is deemed completed when cable splicing has been completed in State Line City, West Lebanon, Williamsport, and Pine Village. If project is completed by May 1, 2025, no performance credits will apply.

(a) Design Delay: Joink shall pay County Two Hundred and Fifty Dollars and No Cents (US\$250.00) per day, up to Five Hundred Dollars and No Cents (US\$500.00) per day in this category in aggregate, for each day underground construction drawing submission to permitting authorities is delayed beyond: July 1, 2023 for State Line City, August 1, 2023 for West Lebanon, September 1, 2023 for Pine Village.

(b) Last-Mile Construction Delay: Joink shall pay County Two Hundred and Fifty Dollars and No Cents (US\$250.00) per day, up to Five Hundred Dollars and No Cents (US\$500.00) in this category in aggregate, for each day construction start is delayed beyond: October 30, 2023 for State Line City (last-mile passings in the city), January 25, 2024 for West Lebanon (last-mile passings in the city), June 18, 2024 for Pine Village (last-mile passings in the city).

(c) Service Level Requirements: During each Consumer installation, and subsequently thereafter, if necessary, Joink shall capture the speed test result and package subscribed to by each Consumer. Joink shall report weekly, in an Excel or equivalent spreadsheet software, to County the results of the speed test and package subscribed for the Consumer installations completed. Joink shall meet ninety-five (95) percent of the advertised levels of service for ninety (90) percent of Consumer installations per weekly report. Joink shall specifically advise County of failure to meet the respective ninety (90) and ninety-five (95) percent goals of service. Failure to meet the results in the aggregate referenced immediately above shall result in a performance credit being paid to County by Joink of up to One Thousand Dollars and No Cents (US\$1,000.00) per report in this category in aggregate, for as long as the condition goes unremedied.

32. Attorneys' Fees. In the event legal action is instituted by any Party to enforce the terms of this Agreement or which arises out of the execution of this Agreement, the prevailing Party in such legal action will be entitled to receive from the other Party the prevailing Party's reasonable attorneys' fees and court costs, including the costs of appeal, as may be determined and awarded by the court in which the action is brought. The right to attorneys' fees shall survive the termination of this Agreement.

33. County's Covenants. Joink shall not be liable to County for, and County shall defend and hold harmless Joink from and pay all costs related to, any and all claims, demands, losses, injuries, liabilities, costs or expenses (including, but not limited to, reasonable attorneys' fees) suffered or incurred by County, or any party acting by, through or under County arising out or as a result of the exercise by County of any right granted to County hereunder, unless caused by a Joink Default or the gross negligence, intentional actions or willful misconduct of Joink or any party acting by, through or under Joink.

34. Joink's Covenants. County shall not be liable to Joink for, and Joink shall defend and hold harmless County from and pay all costs related to, any and all claims, demands, losses,

injuries, liabilities, costs or expenses (including, but not limited to, reasonable attorneys' fees) suffered or incurred by Joink, or any party acting by, through or under Joink arising out or as a result of the exercise by Joink of any right granted to Joink hereunder, unless caused by a County Default or the gross negligence, intentional actions or willful misconduct of County or any party acting by, through or under County.

35. Environmental Liability. County hereby assumes full responsibility for, and shall defend and hold harmless Joink from, any and all environmentally related claims, demands, enforcement actions, liabilities, costs or expenses (including, but not limited to, reasonable attorneys' fees) incurred by Joink arising out of County's performance of its responsibilities under this Agreement. Joink hereby assumes full responsibility for, and shall defend and hold harmless County from, any and all environmentally related claims, demands, enforcement actions, liabilities, costs or expenses (including, but not limited to, reasonable attorneys' fees) incurred by County arising out of Joink's performance of its responsibilities under this Agreement.

36. Incorporation by Reference. All of the Exhibits attached hereto are expressly incorporated herein and made a part of this Agreement, and all references to this Agreement shall include the exhibits hereto. In the event of any inconsistency between this Agreement and the exhibits attached hereto, this Agreement (without reference to such exhibits) shall govern.

37. Execution in Counterparts. This Agreement may be executed and delivered in any number of counterparts each of which so constituted and delivered shall be deemed to be an original and all of which shall constitute one and the same instrument.

38. Notice. Every notice required or permitted hereunder must be in writing and is deemed to have been duly given if personally delivered or mailed by certified or registered mail, return receipt requested, to the Party's address set forth below. Notice is effective upon receipt or refusal as indicated by the return receipt. Either Party may change its address for the purpose of notice hereunder by providing the other Party with notice of the new address.

39. Interpretation. All paragraph headings and other titles and captions herein are for convenience only, do not form a substantive part of this Agreement, and shall not restrict or enlarge any substantive provisions hereof or thereof.

40. Survival. The provisions of Sections 19, 22, 24, 25, 26, 27, 28, and 29 will survive termination of this Agreement.

41. Governing Law. This Agreement is governed by and construed under the laws of the State of Indiana, without regard to conflict of laws principles.

42. Venue. The exclusive venue for all cases or disputes related to or arising out of this Agreement shall attach to the appropriate state or federal courts of Warren County, Indiana.

43. No Third-Party Beneficiaries. This Agreement shall be deemed to be for the benefit solely of the Parties hereto and shall not be deemed to be for the benefit of any third party.

44. Force Majeure. Neither County nor Joink shall be liable to the other or be deemed to be in breach of this Agreement for any failure or delay in rendering performance arising out of causes beyond its reasonable control. Such causes may include, but are not limited to, acts of God or of a public enemy, fires, floods, epidemics, quarantine restrictions, material shortages, pandemics, strikes, freight embargoes, or unusually severe weather.

45. Waiver. The failure of either party to exercise any right given hereunder or to insist upon strict compliance with any term, condition or covenant specified herein, shall not constitute a waiver of such party's right to exercise such right or to demand strict compliance with such term, condition, or covenant.

46. Severability. The invalidity or unenforceability of any provision of this Agreement shall not affect the other provisions, and this Agreement shall be construed in all respects as if such invalid or unenforceable provision were omitted.

47. Amendment. Neither this Agreement nor any provision hereof may be changed, amended, modified, waived, or discharged either orally or by any course of dealing, but only by an instrument in writing signed by the Party against whom enforcement of the change, amendment, modification, waiver or discharge is sought.

48. Counterparts, Separate Signature Pages, and Facsimile Signatures. This Agreement may be executed in several counterparts, by separate signature pages, and/or by

facsimile signatures, each of which may be deemed an original, and all such counterparts, separate signature pages, and facsimile signatures together shall constitute one and the same Agreement.

49. Calculation of Days. In the event that any date described in this Agreement for the performance of an action required hereunder by County and/or Joink falls on a Saturday, Sunday, or federal, state, or county legal holiday, such date shall be deemed postponed until the next business day thereafter.

50. Interpretation. This Agreement and any related instruments shall not be construed more strictly against one Party than against the other by virtue of the fact that initial drafts were made and prepared by counsel for one of the Parties, it being recognized that this Agreement and any related instruments are the product of extensive negotiations between the Parties hereto and that both Parties hereto have contributed substantially and materially to the final preparation of this Agreement and all related instruments.

51. No Recordation. Neither this Agreement nor any memorandum of the terms hereof shall be recorded or otherwise placed of public record.

52. Compliance With Laws. Each Party's obligations under this Agreement shall comply with all applicable legal and statutory requirements.

53. Not an Offer. This Agreement or any draft thereof shall not be considered an offer to contract and shall not be binding against either party until it is fully executed by both County and Joink.

54. Entire Agreement. This Agreement constitutes the entire and final agreement and understanding between the Parties with respect to the subject matter hereof and supersedes all prior agreements relating to the subject matter hereof, which are of no further force or effect. The Exhibits referred to herein are integral parts hereof and are hereby made a part of this Agreement. To the extent that any of the provisions of any Exhibit hereto are inconsistent with the express terms of this Agreement, the terms and conditions of this Agreement shall prevail. This Agreement may only be modified or supplemented by an instrument in writing executed by each Party and delivered to the Party relying on the writing. The Parties agree that no earlier draft or drafts of this Agreement shall be used for any purpose.

I. INTRODUCTION

A. Statement of Intent and Project Overview

In accordance with IC 5-23-4.5, the Warren County Local Economic Development Organization (“LEDO”) on behalf of the Warren County Commissioners in Warren County Indiana (“County” or “Warren County”), invite any and all qualified parties to submit responses (“RFP Response”) to this Request for Proposal (RFP”) regarding a proposed approach to, designing, constructing, financing, operating, and maintaining and/or transferring a development of an extension of broadband services further described below (the “Project”) under a public-private partnership. The purpose and intent of the Project is to increase the availability of high-speed broadband service for the benefit of all the citizens of Warren County.

Prospective Respondents (“Respondent”) that anticipate responding to this RFP shall indicate their intention as soon as possible by providing contact information via e-mail to the representative of the County listed below. At the time of notice, prospective Respondents will be provided access to the County data room of relevant documents. All questions or requests for information regarding this RFP should be directed only to the representative of the County as listed below. Please DO NOT contact any officials or related parties of the County.

The County is not responsible for costs or damages incurred by Respondents, members of a Respondent, subcontractors, or other interested parties in connection with the solicitation process, including but not limited to costs associated with preparing responses, qualifications, and proposals and participating in any conferences, oral presentations, or negotiations.

B. Scope, Goals and Objectives of the Project

This RFP reflects the commitment of LEDO to ensure high-speed broadband is available to as many residents and businesses in the County to further economic development. The successful Internet Service Provider or other organization responding to this RFP will be expected to deploy a network that meets the eligibility requirements set forth in the American Rescue Plan Act of 2021 (ARPA), PL 117-2 (March 11, 2021), which amends Title VI of the Social Security Act (42 U.S.C. 801 et seq.), including the Treasury Final Rule [31 CFR Part 35 RIN 1505-AC77]. Successful Respondents will demonstrate a clear and achievable plan to deliver high-speed, reliable, and affordable broadband communications services in Warren County. This RFP is the first step in a procurement process which encourages Respondents to offer innovative and creative plans to complete the Project. Through this public-private partnership, the County seeks (1) creativity in design and execution; (2) innovative approaches to delivery and financing; and (3) an expedient and integrated design and construction timeline that will create the greatest value for the County’s citizens.

C. Overview of Procurement Process

This RFP requests prospective Respondents to formally express their interest in bidding on the Development of the Project utilizing the Indiana Code § 5-23 Build Operate Transfer Model. Section II summarizes the general Project Specifications and Section IV contains the contents and required and desired Project attributes. It is the intent of the County after receipt of the responses

to this RFP to issue an award of a Public Private Agreement to select a Respondent to partner with the County in Providing high-speed broadband services to the residents of Warren County.

The County will review responses to this RFP to determine Respondents' experience, expertise, proposed approach, and creative ideas to achieving the project. In addition to submitted materials, the County will meet with selected Respondents to discuss approach and emphasized requirements of the project. The information gathered from this process will inform the award of a Public Private Agreement.

II. PROJECT SPECIFICATIONS

The County seeks Respondents' creative ideas and innovations as part of this RFP. The general aspects of the Project which Respondents should consider, and address are as follows:

A. Business Case of Services

(1) Warren County

Rural Warren County competes across Indiana as an attractive place to live or have a business. Out of 92 Indiana counties, Warren County has high rankings including the following: educational attainment of a high school degree or higher diploma (12th), in the median income(19th), and in health outcomes (4th). Warren County's success comes from its high performing K-12 school district, a local Ascension-St. Vincent hospital, and it's strong manufacturing and agricultural industries. County manufacturers and agricultural businesses engage in testing new technology and IOT advancements due to collaborations with Purdue University, Ivy Tech, and the Wabash Heartland Innovation Network ("WHIN"). County residents working at large employers such as Purdue University, Caterpillar, etc. are needing broadband connectivity to meet ongoing remote work opportunities.

Local and regional economic development is strong and is expected to significantly increase due to several advanced manufacturing plants coming online near Purdue University. A recently announced semi-conductor plant represents a \$1.8B investment and will create 750 high earning jobs. Additional supply chain industries are expected to follow. INDOT will begin widening SR26 in 2023 which will further increase connectivity to the Purdue University and these advanced manufacturers. The combination of these factors is necessitating broadband expansion to support current needs and this forecasted growth. The Indiana Economic Development Corporation ("IEDC") has awarded \$30M toward attracting and retaining talent in Warren, Tippecanoe, Carroll, Benton, Fountain, and White counties. The County intends for it's funding share to go toward broadband solutions. The County is largely unincorporated with a relatively low population density rate. Large areas are dedicated to agriculture in row crop, animal production, and timber. Pine Creek and the Wabash River watershed represent significant areas and create terrain changes along with densely forested areas. While these characteristics make the county attractive to residents, these same items also contribute to the challenge of providing broadband services.

A survey collected 2021-2022 by the Warren County Economic Development Organization demonstrated strong market demand for broadband improvements with the following highlights:

- More than 60% indicated that their current internet service was NOT meeting their needs
- Speed test showed 70% were receiving less than 25mbps download
- Majority indicated improved upload/download would be primary reason to switch providers
- 50% indicated paying \$50-\$99 per month, 20% indicated paying more than \$100 per month
- 60% indicated a willingness to pay additional \$10-\$20+ per month for better services

Additional maps and information demonstrating market demand available in Data Room.

(2) Expansion Opportunities of Project

The economic development organization of Warren County and Vermillion County have discussed collaborations and funding opportunities to provide broadband services along the I-74 corridor for current businesses and future development. In addition, broadband services are needed to cover residential, educational, and business needs that stretch north from The Rise industrial park to the residential subdivisions along the Vermillion and Warren County border. Warren County is also part of a 6-county region that received \$30M in funding from the states READI program aimed at attracting and retaining talent. The funds are being invested in projects to improve quality of life, such as broadband.

(3) Available Project Incentives

LEDO acknowledges that creating adequate broadband in the unserved areas would likely require a private enterprise to invest capital and operational expense in advance of demonstrated, adequate market demand for the defined products. As such, the County is prepared to invest up to \$5 million to catalyze a broadband solution with qualified and committed partners. The award may be granted to one provider in full or distributed among multiple Respondents that commit to meeting the goals and conditions outlined in the subsequent RFP and in attendant negotiations. Up to \$3M of County's capital investment may utilize ARPA funds with its associated requirements. The purpose of the funding will be to defray the cost of the infrastructure necessary to meet the requirements of the RFP. The County has an expedited permitting process for broadband builds and will provide resources to assist with the project's success.

(4) Desired Broadband Solution

LEDO seeks to make available high-speed broadband services to as many premises in the County as possible, specifically to underserved or unserved households and businesses. The network is intended to support remote learning, remote workers, telehealth, precision agriculture, and advanced manufacturing to bolster the county's economic growth.

The high-speed broadband services shall specifically provide a service designed to reliably meet, or exceed, a symmetrical speed of 100 Mbps download and 100 Mbps upload; or in cases where the symmetrical 100/100 Mbps service is not practicable, provide a service designed to reliably meet or exceed 100 Mbps download and at least 20 Mbps upload speeds, and be scalable to a minimum of 100 Mbps download and 100 Mbps upload. Final Rule [31 CFR Part 35 RIN 1505-AC77].

The Project is technology agnostic. Both wireless and wireline solutions will be considered, but any awards made must consider guidelines for broadband infrastructure included in the American Rescue Plan Act. Additionally, LEDO requires the following:

- a) universal coverage across a Respondent's identified project geography;
- b) delivery of desired levels of broadband services at affordable price points; and
- c) systems to ensure reliable service uptime with consideration of environmental factors.

The Project intends to use local funds in addition to ARPA funds that are available. The ability of an Respondent's proposal to meet all ARPA requirements is important, but not essential to Respondent involvement in the Project. However, the Respondent shall clearly and thoroughly define any proposed solutions or technical alternatives which may not meet the eligibility requirements of ARPA due to constraints with geography, topography, or excessive costs, but will expand high-speed internet to un/underserved premises.

B. Desired Service Locations

The County desires that the service extend to the maximum possible area which should include the unincorporated areas of Warren County along with the incorporated towns of Pine Village, State Line, Independence, and West Lebanon (hereinafter primarily referred to as "the Primary Service Areas") are identified as the primary areas within the scope of this work. The incorporated town of Williamsport is a secondary service area and is not intended to receive project funding. Should Respondent see a value proposition by including Williamsport in the overall project, the Respondent must separate out these project impacts, benefits, and note if any local funding is required to subsidize Williamsport coverage.

Additional maps and county GIS layers are available in the data room.

Respondents should be aware that the Primary Service Areas are challenged by elevation changes and surrounded by densely forested areas.

LEDO understands providing broadband internet to every premise in the Primary Service Areas is challenging for a range of reasons and may require additional projects or funding to accomplish. Thus, LEDO seeks proposals that state clearly how many premises will be covered and at what levels of service. When evaluating proposals, LEDO will view favorably those that maximize the number of passings the solution would reach. Proposals not fully covering the Primary Service Areas are encouraged to include a paragraph describing requirements to expand their broadband solution to the entire Primary Service Areas.

III. SOLICITATION & RFP REQUIREMENTS

A. Submission Deadline

RFP Responses must be received by the County as provided below by

Responses must be received by 4:00 PM local time on December 19, 2022.

(the “Submission Deadline”). Only complete RFP Responses delivered on or before the Submission Deadline will be accepted by the County. RFP Responses delivered after the Submission Deadline will be automatically rejected and returned unopened to the Respondent.

B. Delivery of Response

All RFP Responses shall be delivered as an electronic PDF to the following person via e-mail (“Contact”): Ben Dispennett, ben@warrenadvantage.onmicrosoft.com

C. Questions and Requests for Clarification

Ben Dispennett, ben@warrenadvantage.onmicrosoft.com

D. Data Room

A data room has been set up with additional information and studies regarding the County broadband needs. Upon receipt of RFP Notice of Interest receipt from a Respondent, access to these materials will be granted for Respondent review in preparation of their response. Send Notice of Interest to Ben Dispennett, ben@warrenadvantage.onmicrosoft.com

E. Anticipated Procurement Schedule

KEY NEXT STEP	EXPECTED TIMING
RFP Issued	November 15, 2022
Deadline for Questions regarding the RFP	November 28, 2022
Approximate Date for County’s response to Questions/ Clarifications	December 5, 2022
RFP Responses Due	December 19, 2022
Committee Announcement of Respondents Selected for Further Due Diligence and Negotiations	January, 2023
Sign Confidentiality Agreements with Qualified Respondents	January 2023
Anticipated Negotiation with Responsible Respondents	January-February 2023
Best and Final Proposals Due to County (if required)	March 15, 2023 5pm
County Recommends Respondent as its Developer for the Project	April 1, 2023

This schedule is for illustration purposes only and should not be construed as binding; except that all RFP Responses shall be submitted by or before December 19, 2022.

IV. FORMAT AND CONTENT OF RFP RESPONSE

A. Format of Response

The RFP Response shall be typed, single sided, on 8 1/2" x 11" paper in English using no less than 11-point font with 1" margins on all sides. The RFP Response shall include a table of contents, which identifies the major RFP Response sections as outlined herein, and any illustrations, tables, charts, graphics or exhibits included in the RFP Response. The RFP Response shall not exceed 25 pages, excluding exhibits.

Respondents shall submit one (1) electronic copy via e-mail in searchable and printable format.

B. Content of Response

All RFP Responses must clearly and thoroughly address each of the components listed below. Respondents are advised to provide a level of thoroughness that will enable Warren County to clearly understand how the proposal will allow Warren County to achieve its objectives. Respondents should focus their responses on Warren County-specific elements as opposed to including generalized or marketing statements and collateral.

1. Respondent and Sub-Contractor Information

- Organization name, address, phone, email, and website
- Contact person name, title, address, phone, and email (if different from the above)
- Overview of Respondent's services and statement of core business competencies, particularly any such services currently available in Warren County and/ or surrounding counties
- Brief explanation as to why the Respondent is interested in this RFP and expanding its broadband service offerings into or within Warren County, and how such network expansion fits within Respondent's broadband footprint.
- Partners or outside vendors that will be utilized to complete any portion of the Project. If a subcontractor or partner will be responsible for any portion of the services, Respondent should identify its plan for replacing the subcontractor or copartner if: (1) the subcontractor or partner's services are unsatisfactory, and/ or (2) they no longer are the subcontractor or partner. Be advised that the Warren County Commissioners must be notified of any replacement subcontractor or partner at the time the change is made and in advance of agreement execution or commencing of work under such subcontract or partner relating to the Project, as applicable.

2. Respondent Experience, Partnerships and Financials

- Overview prior experience designing, planning, constructing, financing, operating, and/ or maintaining infrastructure and projects like the Proposed project for Warren County. Respondents are further required to provide a narrative, including references and any measurable benefits, for any similar projects to that which the Respondent is proposing for Warren County.
- Overview and resumes for Respondent’s executive team and any individuals who will be directly involved in the proposed Project in Warren County.
- Three Years of Audited Financial Statements for Respondent or alternatively a comprehensive set of financial documents that would provide the County with information to satisfy the County that Respondent possesses adequate financial stability and resources to undertake and complete Respondent’s proposed solution(s).

3. Respondent Proposed Build-Out and Network Operations

- Proposed wireless and fiber network architecture, including the incorporation of existing vertical assets through mutually agreeable lease arrangements with Warren County and the construction of new vertical assets, as needed.
- If the Respondent is proposing a fiber solution, please further detail: (1) whether the network will be Gigabit Passive Optical Network (GPON) or Ethernet Passive Optical Network (EPON), or otherwise; (2) whether the fiber infrastructure will be provided to the home (“Fiber-to-the-Home” or “FTTH”)/ to the premise (“Fiber-to-the-Premise” or “FTTP”), to the node (“Fiber-to-the-Node” or “FTTN”), or other; (3) the total number of strands proposed in the network; and (4) how many of said strands will be allocated to Warren County for its use.
- If the Respondent is proposing a fixed wireless solution, please further detail: (1) the anticipated spectrum band for such deployment; (2) whether it is licensed or unlicensed; (3) whether the solution aligns with 4G/5G 3GPP standards; and (4) the approximate percentage of Broadband Infrastructure that will be new construction and the percentage of Broadband Infrastructure that will be existing County-owned or privately owned assets.
- Proposed phases, cost, and estimated timeline for each phase, if applicable; and estimated cost and timeline for full Project completion.
- Respondent should fully detail the information and/ or support that would be required from the Warren County Commissioners in order to meet the proposed timelines, including, but not limited to financial contribution, permits, consents, approvals, authorizations; access to available assets including fiber, conduits, real estate, and/ or vertical assets; public outreach and education campaigns; and network testing.

- If Respondent is seeking financial contribution from Warren County, it must detail what percentage this constitutes of the overall Project cost.
 - If Respondent is seeking access to Warren County-owned assets, it must provide a list of the asset(s) and cost that it is willing to contribute in order to be granted access to such asset(s).
- Please confirm timeline to procure material and labor to meet the installation as proposed in your solution(s). Note any supply chain and/or labor needs or issues upon which the timeline is contingent. The Respondent shall further provide its plan for training and staffing of the Project to overcome any labor shortages.
 - Scalability of the proposed Broadband Infrastructure as residential, commercial, and institutional bandwidth demands in Warren County continue to increase.
 - Whether the Respondent currently owns and/ or operates broadband infrastructure within Warren County and how would such infrastructure be contributed to the Project.
 - The County would prefer an open access network, detail how the Respondent will ensure open access of the Broadband Infrastructure and what carriers, ISPs, data centers, etc. are currently utilizing the Respondent's network(s) within Warren County or otherwise.
 - How does the Respondent ensure user protections and the security of its network?
 - Any Respondent awarded under this RFP shall deliver service of at least 100 Mbps download/ 20 Mbps upload and scalable to meet, or exceed, 100 Mbps download and 100 Mbps upload ("symmetrical") service to end-users in Warren County. Please detail how the Respondent ensure that the requisite broadband speeds are delivered to end users and provide information of such speeds to Warren County and/or such users.
 - What percent of Warren County residents will be served with 100 Mbps download/ 20 Mbps upload, or greater, broadband service upon completion of the proposed Project? What percentage of Warren County residents will be served with 100 Mbps download/ 100 Mbps upload symmetrical, or greater, broadband service upon completion of the proposed Project?

4. Respondent Pricing Components

- Respondents shall provide their proposed rate structure for the various end users to which service will be available through the proposed build-out. Respondents must provide one-time costs, such as customer premise equipment ("CPE")

installation, and recurring costs, such as monthly service costs, for residential customers, commercial customers, and institutional/ governmental customers.

- Respondents shall detail how it will provide its pricing structure(s) to end users and how users are notified of any changes to such pricing structures.
- Network monitoring and customer support/ customer service protocols, including network redundancy, short- and long-term maintenance and upgrades to the proposed network.
- Revenue-share opportunities for Warren County from the Project are considered secondary to Warren County's priorities. However, Respondents should include any proposed revenue-share opportunities in sufficient detail for the Warren County Commissioners to analyze the potential benefit prior to issuing award under the RFP.
- If applicable, Respondent should describe additional funding opportunities that could support its efforts with Warren County (for this project or others in the future).

5. Respondent Existing and Future Operations within Warren County

- Current Respondent office(s) and/ or staff within Warren County. If so, please provide the address of the office and/ or number of staff in Warren County. If not, please provide the address of your closest office location to Warren County.
- Middle mile infrastructure currently owned, leased, or otherwise used by the Respondent in the County. If additional middle mile construction will be needed in order to provide the project contemplated herein, Respondent should detail such construction, including projected cost and timeline by phase, if applicable. Respondents shall further detail what proportion of such cost they would seek from the Warren County Commissioners as a contribution to the total Project deployment.
- Last-mile broadband service that the Respondent currently offers in Warren County, as well as what entities use and are permitted to use such service Warren County (e.g., residents, businesses, government, etc.) and the length of time that such service has been available within Warren County.
- The County's preference is to work in collaboration with the Awardee. Collaboration can take many forms. Please detail how the Respondent proposes to work with Warren County and the purported benefits of such arrangement for each party.
- How the Respondent will market the Broadband Infrastructure to users in Warren County, once available and what assistance is expected from the Warren County

Commissioners for such outreach. The Awardee shall provide clear information to end-users regarding monthly service rates and speeds supplied over the network.

- Any low-cost offers that would be made available with Respondent's service, such as the Affordable Connectivity Program ("ACP"). **NOTE:** Should the Warren County Commissioners contribute a portion of the County's ARP funds to the Project, the Awardee will be required to participate in the ACP program, per the Federal Rules.
- Any additional digital inclusion efforts included in the Respondent's Project.
- How many additional households, businesses, and institutions in Warren County will have access to broadband service as a result of this Project, and at what speed tiers and pricing level. Among the businesses and institutions, please include any small business, elementary school, higher education institution, library, healthcare facility and public safety organization that will have increased access to broadband service.
- Any additional services that will be made available in Warren County through the Respondent's proposed project. This includes, but is not limited to, Internet of Things ("IoT") use cases such as precision agriculture, smart utility monitoring, and others.

6. Specificity of Outcomes

- a. Provide connections to premises in the town limits of Pine Village, West Lebanon, State Line, and Independence
- b. Provide fiber connection between Pine Village, Williamsport, West Lebanon, State Line, and Independence
- c. Minimum speeds of 100/20 mbps
- d. At least 50% of solution should meet ARPA broadband requirements. Please indicate, to the best of Respondent's knowledge, which parts of the solution will meet those requirements.
- e. Provide connections to all premises within 300' of fiber line. (Note: with the exception of premises within Williamsport town limits)
- f. Solution that describes Respondent's proposed method or plans for future broadband growth in county toward 100% connectivity of residents and businesses.
- g. A solution that does not exceed \$5M in capital investment from the County

The County favors solutions that include one, or more, of the following items:

- a. Additional premises served outside of the Primary Service Areas listed above. Respondent to describe county penetration level and method used to provide service.
 - i. Fiber to the premise in Williamsport— no county funds shall be used to fund
- b. 1 gbps symmetrical speeds
- c. Additional services beyond broadband such as phone, cellular services, streaming services, public wifi, etc
- d. No connections fees beyond 300 feet of fiber/road. Respondent to propose further distance.
- e. County control or ownership of fiber asset for County use or to ensure continued build toward 100% broadband coverage of County
- f. A digital inclusion program run by the Respondent

Respondents must provide a solution that meets the minimum outcomes listed. In addition, Respondents may also propose additional solutions that may include broader options for resolution of desired outcomes. Any solution proposed shall detail with specificity any additional financial or other contributions of the County which would be necessary to accomplish such solution.

7. Solution Overview Sheet

Respondent must complete and submit the Solution Overview Sheet found in Appendix A.

C. Confidential Information

If the Respondent should include any confidential information, this section shall include any confidential and proprietary information that the Respondent claims should be exempt from public disclosure. Respondent is solely responsible for reviewing the Indiana's Public Records Act, and applicable law requiring disclosure. Under no circumstances will the County be responsible or liable to Respondent/Developer or any other party as a result of disclosing materials that it determines, in its sole discretion, are not protected by the Act and/or Indiana's Public Records Act, including, without limitation, materials marked "Confidential."

V. Evaluation Criteria

RFP responses shall be evaluated based on the following criteria. This is not intended to be a comprehensive list, nor is the arrangement of the criteria meant to imply order of importance in the selection process:

- PROPOSED BUILD-OUT AND NETWORK OPERATIONS: 40 possible points
 - Number of addresses and areas covered by proposed solution
 - Service level speed and price points to end users
 - Timeline for completion and deployment of broadband solution
 - Solutions capability and future operations to achieve county goals
- FINANCIAL COMPONENTS: 25 possible points
 - County financial investment
 - Respondent's financial contribution
 - Upfront cost to end user
- RESPONDENT EXPERIENCE AND PARTNERSHIPS: 25 possible points
 - Knowledge and technical competence
 - Customer service and acquisition capabilities
 - Financial stability
- INNOVATION: 10 possible points

VI. Examination of Documents and Requirements

Each Respondent shall carefully examine the RFP and thoroughly familiarize themselves with all requirements prior to submitting a proposal to ensure that the proposal meets the intent and requirements. Before submitting a proposal, each Respondent shall be responsible for making all investigations and examinations necessary to ascertain conditions affecting the intent and

requirements. Failure to make such investigations and examinations shall not relieve the Respondent from its obligation to comply, in every detail, with all RFP provisions and requirements.

VII. Post-Proposal Discussions with Respondents

It is the Warren County Commissioners' intent to commence final negotiations with the Respondent(s) deemed most advantageous to Warren County and most likely to deploy broadband to the most County locations (the "Awardee"). Warren County reserves the right to conduct post-proposal discussions with any or multiple Respondent(s).

VIII. Terms, Conditions, Limitations and Exceptions

- This RFP does not commit Warren County to issue an award or to pay any costs incurred in the preparation of a proposal in response to this RFP.
- The proposals will become part of Warren County's official files without any obligation on Warren County's part.
- All proposals received and any or all-supporting documentation are subject to the State of Indiana Public Records Act and the provisions of Indiana Law. The County will use reasonable due diligence where lawful to protect materials clearly marked by any Respondent as "proprietary," "trade secret" or "confidential". General technology approach or business model information does not constitute "proprietary," "trade secret" or confidential information.
- Respondent(s) shall not offer any gratuities, favors, or anything of monetary value to any official or employee of Warren County.
- Respondent(s) shall not collude in any manner, or engage in any practices, with any other Respondent(s) or Third Party, which may restrict or eliminate competition or otherwise restrain trade. This is not intended to preclude subcontracts and joint ventures for the purposes of: (1) responding to this RFP, or (2) establishing a project team with the required experience and/or capability to provide the services specified herein. Conversely, Warren County can combine or consolidate proposals, or portions thereof, for the purposes mentioned herein.
- All proposals submitted must be the original work product of the Respondent. The copying or paraphrasing of the work product of another Respondent is not permitted.
- The RFP and the related responses of the selected Respondent may by reference become part of any formal agreement between the selected Respondent and Warren County. Warren County and the selected Respondent may negotiate a contract or contracts for submission to Warren County for consideration and approval. In the event an agreement cannot be reached with the selected Respondent, Warren County reserves

the right to select an alternative Respondent. The County reserves the right to negotiate with alternative Respondent(s) the exact terms and conditions of the contract.

- Respondents, their authorized representatives, and their agents are responsible for obtaining, and will be deemed to have full knowledge of the conditions, requirements, and specifications of the RFP at the time a proposal is submitted to Warren County.
- Warren County may terminate its review of a Respondent's proposal or an Awardees' performance under a contract in the event of a default by the Respondent or Awardee and a failure to cure such default after receiving notice of default from Warren County. Default may result from the Respondent's or Awardee's failure to perform under the terms of the contract or from the Respondent or Awardee becoming insolvent, having a substantial portion of its assets assessed for the benefit of creditors, or having a receiver or trustee appointed.

Warren County reserves the right to unilaterally disqualify any Proposal which in Warren County's opinion fails to provide information or data requested or which provides materially inaccurate or misleading information or data or, in the County's sole discretion, is determined to not be responsive or responsible. Further, Warren County reserves the right to unilaterally disqualify any Respondent based on any real or apparent conflict of interest that is disclosed by the proposal submitted or any other data or information available to Warren County. This disqualification is at the sole discretion of Warren County. By submission of a proposal hereunder, the Respondent waives any right to object now, or at any future time, before any body or agency, including but not limited to, Warren County's elected officials, officers, agents, or employees, or any court, as to the exercise by Warren County of such right to disqualify or as to any disqualification by reason of real or apparent conflict of interest determined by Warren County.

Warren County shall have the unilateral right to reject any Respondent RFP response including, but not limited to the following:

- 1. Failure to submit the RFP response for Warren County to receive it by the deadline of Friday, December 19, 2022 at 4:00pm Eastern.**
- 2. Failure to submit the RFP response to the correct location.**
- 3. Failure to submit the RFP response in the prescribed formats and number of copies.**
- 4. Failure to include all requested information.**
- 5. Taking exception to the terms, conditions, and specifications herein.**

NOTE: Any deviation/ omission from the preceding list may void a Respondent response.

The issuance of this RFP and the acceptance of a proposal does not constitute an agreement by Warren County that any contract or other agreement will be entered into by Warren County. The County expressly reserves the right to:

- 1. Reject any or all proposals.**
- 2. Reissue the RFP.**
- 3. Accept portions of individual or multiple RFP responses.**
- 4. Request more information and/or clarification of proposals from any or all Respondents.**
- 5. Waive immaterial defect(s) or informality(ies).**

The foregoing granting of negotiation rights does not commit Warren County to accept all or any of the terms of the proposal(s). Final terms of any agreement will be agreed upon during negotiations. Negotiations may be terminated at any time by Warren County for failure to reach mutually acceptable terms.

- Warren County reserves the right to request clarification of any proposal after all proposals have been received.
- Warren County reserves the right to select elements from different individual proposals and to combine and consolidate them in any way that best serves Warren County's interest. Warren County reserves the right to reduce the scope of the project and evaluate only the remaining elements from all proposals. Warren County reserves the right to reject specific elements contained in all proposals and to complete the evaluation process based only on the remaining items.
- Any disputes arising out of this agreement that result in litigation shall attorn to the jurisdiction of an appropriate court either state or federal, for Warren County, Indiana.
- This RFP, the responses thereto, and any awarded contract thereunder shall for all purposes be construed and enforced in accordance with the laws of the State of Indiana and the United States of America without regard to conflict of law principles. All Respondents shall comply with any and all applicable orders, rules or regulations of the Federal Communications Commission ("FCC"), Public Utilities Commission of Indiana ("PUCO"), and Federal and State law in submitting a response to this RFP, and during the term and in performance of any contract awarded as a result of this RFP. The Awardee shall adhere to the requirements of the American Rescue Plan Final Rules, and the requirements of all further guidance issued by the U.S. Department of Treasury, or other applicable federal agency, on the American Rescue Plan, should Warren County utilize American Rescue Plan funds in issuing an award under this RFP.
- Entities submitting proposals must have the capacity to enter into a legally binding contract. All contract(s) amount(s), if any, resulting from this solicitation will be paid

directly to the entity submitting accepted proposal(s). In any accepted proposal(s), to authorize payments directly to another third party upon contracting the proposing entity may be required to fully execute such proper payment authorization forms as acceptable to Warren County.

- The County reserves the right to conduct, for security reasons, a lawful background investigation on the selected Respondents, its principal party(ies), personnel or subcontractors. Respondents agree to cooperate with Warren County in this endeavor and to provide any permitted, reasonably necessary information. The County will, upon the Respondent's written request, provide a copy of such background investigations to the Respondents, to the extent allowable by law. Dependent upon the results of the background check, Warren County may request the Respondents to immediately remove an individual from participation on this project. Respondents shall not knowingly assign any personnel with records of criminal conviction(s) to this Project without advising Warren County of the nature and gravity of the offense. In fulfilling the obligations under this section, Warren County and the Respondents shall comply with all laws, rules, and regulations relating to the making of investigative reports and the disclosure of the information contained therein. Warren County and the Respondents shall, if allowed by law, indemnify, defend, and hold each other harmless against any wrongful disclosure by the indemnifying party, its employees, and/or agents of said reports and the information contained therein.
- All selected Respondents shall be required during the project to cooperate fully, and in any reasonable manner Warren County shall request, with all Warren County officials, officers, agents, employees, contractors, subcontractors and volunteers. Further, selected Respondents shall be required to coordinate their implementation(s) with all other selected Respondents and all other projects that are being undertaken by Warren County. If any problem or difficulty should arise regarding such attempts at cooperation and coordination, Warren County shall be immediately informed and will determine the way the parties are to proceed.

Exhibit B

December 19, 2022

RESPONSE TO RFP:
WARREN COUNTY BROADBAND EXPANSION

ISSUED:
November 15, 2022

December 19, 2022

Ben Dispennett
Executive Director
Warren County Local Economic Development
ben@warrenadvantage.onmicrosoft.com

Dear Mr. Dispennett –

Joink is very grateful for the opportunity to make this submission. The RFP issued on behalf of Warren County reflects significant foresight and a progressive leadership tone on the conversation of broadband. Certainly, recent times have demonstrated the importance of high-quality broadband and Joink is grateful for the opportunities we have had to provide these services to our customers.

We hope that our response allows you to be confident that Joink has the experience and expertise to deliver our proposed approach. In our enclosed proposed plans, we have not compromised in the infrastructure (underground fiber installed in conduit) in any regard. We propose to implement a system in the same way we implement other systems. Joink is well known for performing very high-quality construction that exceeds established industry best practices, collaborating with other utilities, collaborating with right of way holders and permitting authorities, and delivering best-in-class connectivity solutions with extremely high uptimes. Joink's biggest strength is its people. With approximately 200 employees, and growing rapidly, Joink has a very strong company culture where team members are given every opportunity to get it right for our customers every day. Our success, and some might say our potential, was recently identified by DIF Capital Partners. I have attached a copy of the DIF press release for your review. We're excited to have DIF as our partner. They are eager to support this next chapter in Joink's growth – one of residential expansion – and we would be delighted to work with Warren County to build a best-in-class fiber-optic network that provides your residents connectivity that exceeds what's available in most metropolitan markets.

Joink is a well-capitalized local Indiana company headquartered in nearby Terre Haute, Indiana and has years of experience building and operating a state-of-the-art fiber optic system. Joink has successfully now served thousands of end user premises – many with the most demanding performance requirements. Joink is the best positioned to expand its existing system into Warren County and to be Warren County's local service provider. We have carefully reviewed and thoughtfully replied to your RFP, and we believe the response we have prepared is complete and will be compelling.

Thank you for the opportunity to respond. Please contact us with any questions.

1A – Statement of Intent & Project Overview

Joink is a qualified respondent (see exhibit C) and is interested in collaborating to increase the availability of high-speed broadband service for the benefit of all the citizens and businesses of Warren County

Joink provided a timely statement of intent as required. Contact information for the Joink individual responsible for this response is as follows:

Kevin Feeney
Sales Analyst
(812) 870-8038
Kevin.feeney@joinkllc.com

Joink acknowledges that the County is not responsible for costs, expenses, or damages incurred by Respondents, members of a Respondent Team, subcontractors, or other interested parties in connection with the solicitation process, including but not limited to costs associated with preparing responses, qualifications, and proposals and participating in any conferences, oral presentations, or negotiations.

1B – Scope, Goals, and Objectives of the Project

Joink understands it will be expected to deploy a network that meets the eligibility requirements set forth in the American Rescue Plan Act of 2021 (“ARPA”), PL 117-2 (March 11, 2021), which amends Title VI of the Social Security Act (42 U.S.C. 801 et seq.), including the Treasury Final Rule [31 CFR Part 35 RIN 1505-AC77].

Joink has demonstrated in this response a clear and achievable plan to deliver high-speed, reliable, and affordable broadband communications services in Warren County.

Joink understands this response is the first step in a procurement process and has put together an innovative and creative plan to complete the Project.

Joink understands that the county seeks (1) creativity in design and execution; (2) innovative approaches to delivery and financing; and (3) an expedient and integrated design and construction timeline that will create the greatest value for the County’s citizens.

1C – Overview of Procurement Process

By responding to the RFP, Joink is formally expressing interest in bidding on the Development of the Project utilizing the Indiana Code § 5-23 Build Operate Transfer Model. However, Joink’s interest is in continuing to own and operate the network, rather than transfer its ownership and/or operations back to the county. Joink understands the Procurement Process as stated in the RFP.

2A – Business Case of Services

1. Warren County

Joink has reviewed and acknowledged the economic development activities of the County as listed in the RFP and is excited for the opportunity to service the County:

Specific to the survey results highlighted in this section of the RFP, Joink's proposed fiber internet network will address those survey results, by providing residential customers a minimum symmetrical (upload and download) speed of 300Mbps, with a current maximum offered speed of symmetrical 1,000Mbps. The equipment Joink is beginning to deploy is capable of multi-gigabit symmetrical speeds. Joink's monthly service prices are \$69 for symmetrical 300Mbps, \$99 for symmetrical 500Mbps, and \$129 for symmetrical 1Gbps. This will provide residents with dramatically improved upload/download speeds (that will meet their needs), providing a primary reason to switch providers, all while keeping Joink monthly internet service payments approximately consistent with amount currently being paid or in the case of the higher tiers, a price consistent with the willingness to pay additional amount(s).

2. Expansion Opportunities of Project

Joink understands the expansion needs specified in the RFP (along the I-74 corridor, Vermillion Rise, subdivisions along Vermillion/Warren County border) and we believe the maps we have included care for the requested expansion.

3. Available Project Incentives

Joink appreciates the County being prepared to invest up to \$5M to catalyze a broadband solution (up to \$3M of which may utilize ARPA funds with its associated requirements). Joink is a qualified and committed partner and would use the funds provided to defray the cost of the infrastructure necessary to meet the requirements of the RFP. Joink will also deploy technologies and utilize construction methods that will make the county confident in the long-term sustainability and useful life of its capital contribution. Joink appreciates the county's approach to expedited permitting and its providing of additional resources.

4. Desired Broadband Solution

Joink's proposal will make high-speed broadband services available to the address points in the incorporated towns of Pine Village, State Line, Independence, and West Lebanon in addition to the homes directly passed along Joink's fiber routes. Due to the route, Joink will also, at its own expense, build out the town of Williamsport. The full buildout will bring high-speed broadband services to 2,060 locations. The fiber network proposed will support remote learning, remote workers, telehealth, precision agriculture, and advanced manufacturing, bolstering the County's economic growth.

Joink's fiber internet network will provide residential customers a minimum of symmetrical 300Mbps, with a current maximum of symmetrical 1,000Mbps [exceeds Final Rule 31 CFR Part 35 RIN 1505-AC77].

The Project is an all-Fiber solution and takes the following into account:

- a. Service will be offered to each home or business passed along the proposed routes within the project geography.
- b. The services offered will always be faster than the required 100 Mbps download and 100 Mbps upload. Initial offerings (download x upload) will include:
 - a. 300x300 for \$69/mo
 - b. 500x500 for \$99/mo
 - c. 1000x1000 for \$129/mo

- c. The network will be designed with systems (all underground, all components rated for extreme applicable weather conditions) to ensure reliable service uptime with consideration of environmental factors. Additionally, Joink's network is maintained to 99.9% uptime and Joink monitors and administers the Internet assets twenty-four (24) hours a day, seven (7) days a week, three hundred sixty-five (365) days per year and any repairs would be dispatched out of Joink's Terre Haute headquarters.

Joink believes this proposal meets the eligibility requirements of ARPA.

2B – Desired Service Locations

This response will deliver service to the incorporated towns of Pine Village, State Line, Independence, and West Lebanon, as well as unincorporated areas of Warren County passed along the planned construction. Joink acknowledges that no project funding is available for servicing homes and businesses in Williamsport. Regardless, if this response is selected as issued, Joink will commit to expanding its network to be able to provide fiber services to the homes and businesses of Williamsport with no additional local funding.

Please find in Exhibit A maps that depict the address level coverage of the response locations. All fiber asset infrastructure will be underground. All broadband services proposed by Joink will be offered to all areas covered by Joink fiber (i.e. services will not be differentiated based on location). The maps attached outline asset placement (all addresses passed will qualify for all levels of service), total coverage area, and other visual elements that demonstrate coverage of the proposed project within the priority area(s) and beyond. No areas and/or addresses passed by Joink fiber will receive different service levels within our proposal.

Joink's fiber middle mile routes (as shown in yellow on the maps) will extend from just South of the Warren County border up to State Line City, through West Lebanon and Williamsport, and head North to terminate in Pine Village and East to terminate in Independence.

With Joink's fiber network middle mile built to the desired towns, it will enable Joink to build last mile fiber (as shown in red on the individual city maps) to each home.

Expanding this response to the entirety of all unincorporated areas of Warren County (the remaining portions of the Primary Service Area) will require collaboration on other grant opportunities and/or alternative technologies such as fixed wireless, where Joink is also extremely experienced and qualified.

3A – Submission Deadline

Joink understands that this RFP must be delivered by 4:00 PM on December 19, 2022. Joink submitted this RFP Response timely.

3B – Delivery of Response

Joink will deliver the response as a PDF to the listed Contact.

3C – Questions and Notice of Interest

Joink responded with a Notice of Interest to the contact listed.

3D – Data Room

Joink has been granted access to the Data Room and Joink successfully accessed the Data Room.

3E – Anticipated Procurement Schedule

Joink understands the Procurement Schedule as listed in the RFP, and that the schedule is not binding.

4A – Format of Response

Joink understands and complied with the required response format as listed in the RFI.

4B – Content of Response

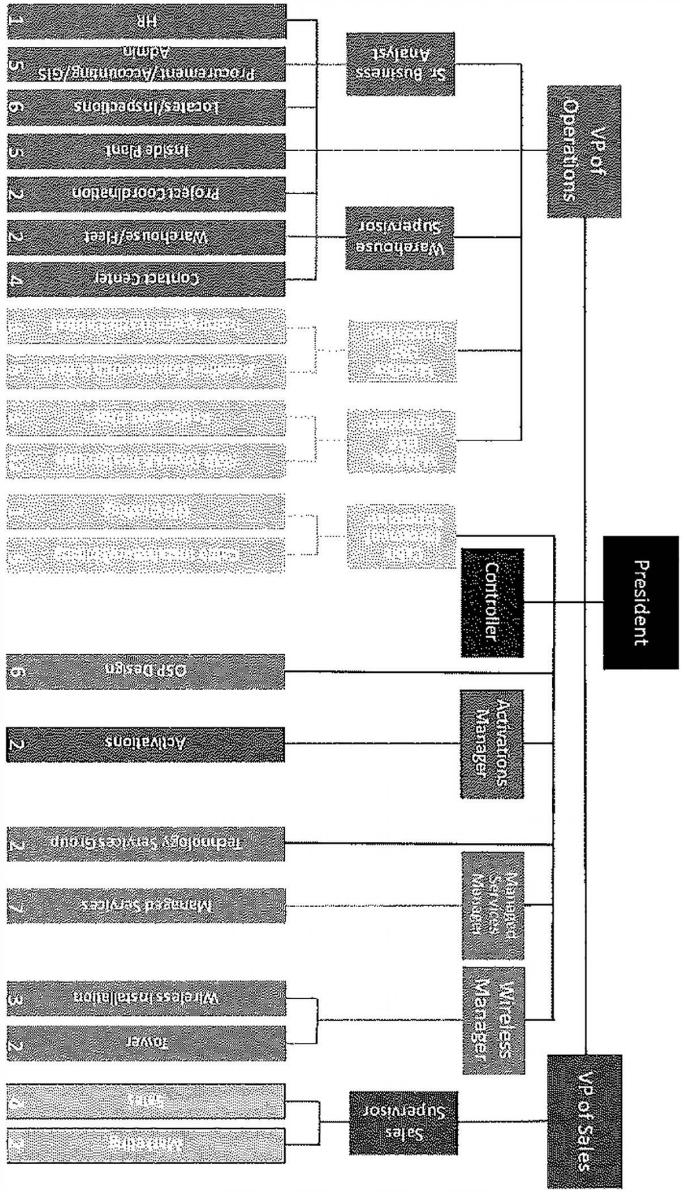

1. Respondent and Sub-Contractor Information

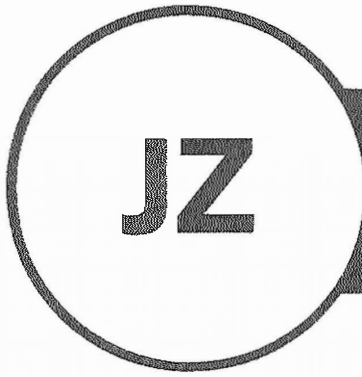

- Organization name, address, phone, email, and website
 - Name: Joink, LLC
 - Address: 834 S 10th St, Terre Haute, IN 47807
 - Phone: 812-208-1477
 - Email: josh.zuerner@joinkllc.com
 - Website: www.joink.com
- Contact person
 - Name: Kevin Feeney
 - Title: Sales Analyst
 - Address: 834 S 10th St, Terre Haute, IN 47807
 - Phone: 812-870-8038
 - Email: kevin.feeney@joinkllc.com
- Overview of Respondent's services and statement of core competencies
 - Joink is one of the Midwest's leading providers of technology services, with its largest focus being the provisioning of internet connectivity services, both fiber and fixed wireless. As an employer of over 200 talented employees (with more hired and over twenty open positions), Joink has expanded its connectivity footprint in the last 20 years. Joink performs all of its own work, except for hard surface restoration and professional engineering when projects require the "stamp" of a professional engineer. Work performed internally, for example, includes design, engineering, permitting, construction, splicing, internal wiring, and activations. To date, Joink has implemented over 540 route miles of fiber and serves thousands of end users in a five-county area (Vigo, Vermillion, Parke, Clay, and Sullivan) in West Central Indiana. The fiber-optic network was initially built to meet the demanding needs of anchor tenants such as healthcare and banking, enterprise customers, and other wired and wireless telecommunications carriers. Joink has recently begun expanding its network, making it denser, by connecting small and medium sized businesses, apartments complexes, and single-family homes.
- Brief explanation as to why the Respondent is interested in this RFP and expanding its broadband service offerings

- Warren County is an exciting opportunity for Joink. Joink's focus has been specific to West Central Indiana and this opportunity will allow Joink to extend into a new area while still keeping Joink's local footprint. Joink's current fiber footprint is the five-county area south of Warren County, with the furthest north fiber extension being just south of the Warren County/Vermillion County border. Being such a big part of the community means Joink takes opportunities like this seriously and will put the utmost focus on ensuring the project is done right and the community is treated well.
- Partners or outside vendors
 - Joink does not often utilize subcontractors. However, Joink may need to exercise the allowed option of engaging the services of subcontractors to achieve the required timeline of the project if we are not able to continue to grow our staff at the same pace we have historically enjoyed. The use of subcontractors could include various portions of design, passings, and connections but always at the direction and under the supervision of captive Joink staff. If a subcontractor will be responsible for any portion of the services, Joink will inspect the work and have the work remediated until it is satisfactory (including replacing the contractor after notifying the Warren County Commissioners).

2. Respondent Experience, Partnerships, and Financials

- Overview of prior experience:
 - i. In addition to operating its own fiber network that passes over 25,000 single family homes and apartments in Illinois and Indiana...
 - ii. Joink was awarded seven projects from the Office of Community and Rural Affairs (OCRA) Next Level Connections Round 2 grant program in 2020. The grants were for \$1,923,434 in state funding to construct \$2,404,292 in network.
 - iii. Joink was also awarded five projects through Next Level Connections Round 3 program that was announced in April 2022 for projects located in West Central Indiana – 1 per each county. These grants were for \$10,344,642 in state funding and \$2,852,158 in local funding to construct \$15,283,477 of network.
 - iv. Joink constructed to approximately 84 community access locations in partnership with the City of Terre Haute and Vigo County government and the Vigo County School Corporation under the Governors' Emergency Education Relief Fund (GEERs) grant to allow students within VCSC to access the school corporations' network at these locations to help them during e-learning days. These grants totaled \$1,379,379 of state funds, \$2,805,056 in county funds, and \$543,580 in city funds.
 - v. In every case, these projects have resulted in Joink expanding its fiber optic network and making its services available to those passed. Joink has established a reputation for being a trustworthy partner of building highly reliable fiber-optic networks responsibly and in collaboration with its community.
- Overview of executive team and individuals who will be involved in proposed project
 - a. Joink's management team, based out of Terre Haute, has the capabilities, qualifications, and certifications, and experience to implement (design, construct, provision) and provide ongoing support (Joink, LLC as a continuation of Joink, Inc has been providing ISP services for over twenty years). Resumes for key staff follow.

Assists with onboarding and projects of OSP Designers.

DRAFTING TECHNICIAN • JOINK, LLC • MAR 2016 - NOV 2018

Prepares drawings related to outside plant construction, building entrance, and permitting. Scope of work includes staking installation path, review of installation issues, and site visits for installations. Coordinates with community, property owners, and permitting authorities for Joink work.

SENIOR PLANT LEAD SUPERVISOR • PEABODY ENERGY • 1999-3/2016

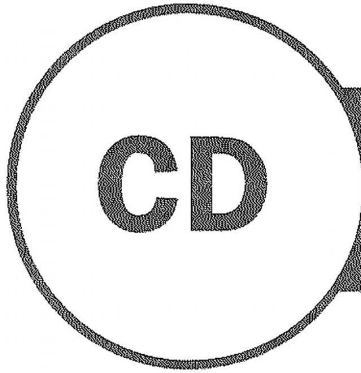

Senior plant lead supervisor, involved in a variety of plants during tenure and variety of maintenance related activities

EDUCATION

A.S. in Design Engineering Technology • Ivy Tech

PERSONAL INTERESTS

Tim enjoys hunting and spending time with his friends and family, often in the workshop, gym, or outdoors. He enjoys finding new opportunities for lifelong learning.

CREIG DANFORD

(National Railroad
Safety)

EXPERIENCE

SENIOR OSP DESIGNER • JOINK, LLC • SEPT 2019 – PRESENT

Design and prepare specialized drawings focusing on PON, CWDM, and DWDM networks. Design Multi-Dwelling (MDU) properties including field representation, coordination with contractors, participation in infrastructure documentation, and infrastructure budgeting.

DRAFTING SUPERVISOR • JOINK, LLC • APRIL 2017 – SEPT 2019

Provide progress reports and production goals for drafting team. Prepare specialized splicing and cable placement drawings. Review drawing sets for build feasibility and accuracy before being approved by Management.

DRAFTING TECHNICIAN • JOINK, LLC • JULY 2015 – APRIL 2017

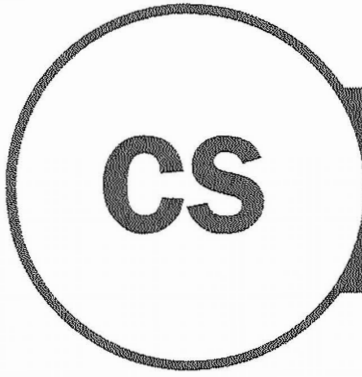

Prepares drawings related to outside plant construction, building entrance, and permitting. Scope of work includes staking installation path, review of installation issues, and site visits for installations. Coordinates with community, property owners, and permitting authorities for Joink work.

EDUCATION

Associates in Design Technology • Ivy Tech

PERSONAL INTERESTS

Creig enjoys spending time with his kids traveling, hiking, and camping.

OSP CREW /VARIOUS ROLES • JOINK, LLC • JULY 2014-JUNE 2017

Performs construction in accordance to Joink safety standards, following construction design paths and utility crossings, setup of bore/plow machine, mixing of drilling fluids, setup of pullback, safely operates all equipment.

EDUCATION

High School Diploma • Northview High School

PERSONAL INTERESTS

David enjoys outdoor sports, specifically deer hunting in his spare time. He is also a craftsman and enjoys various projects, including the building of his own residence.

- Three Years of Audited Financial Statements have been included as a separate attachment.

3. Respondent Proposed Build-Out and Network Operations

- Architecture

If awarded, Joink's proposed Warren County project will be delivered on an all-underground all-fiber-optic access platform. Latency back to Joink's core will be less than 1 ms. Joink's core network includes Joink equipment installed in Terre Haute, Indianapolis, Chicago, and St Louis. The network is non-overlapping and has integrated redundancies.

The servicing electronics placed in Warren County will be connected back to Joink's existing fiber network currently ending in Cayuga in Vermillion County. Joink's network in Cayuga is being expanded northward to just south of the Vermillion/Warren County line by an Indiana Office of Community and Rural Affairs Next Level Connections (NLC) (Round 3) Grant. Accordingly, Joink's proposal plans for its primary connection from its servicing electronics in Warren County back to the existing Joink core network, to be performed entirely on Joink owned fiber. This distinction provides for essentially unlimited expansion potential for network capacity within Warren County. As discussed previously, Joink will explore establishing a leased circuit for redundant connectivity to its servicing electronics installed in Warren County. As Joink continues to expand, it will look for opportunities to achieve this redundancy within its own network.

Utilizing our own fiber, a 100 Gb primary connection will be established from Joink's equipment in Vermillion County to Joink's equipment in Warren County. Additional fibers will be reserved in Joink's cable for additional capacity if needed in the future to expand the speed of the connection. Electronics placed in Warren County will service all customer premises. Fibers will be passively split in the field with up to 32 customers serviced per servicing electronics port. The only powered components of the network will be at Joink's remote switching office and inside the customer premise. When servicing multi-dwelling units, for example, no common power will be needed from the building owner, only passive components will be installed on the building. Each tenant will power their own indoor optical network terminal to be used in receiving Joink service.

The lit fiber will be installed inside a newly constructed all-underground conduit. Conduits will be expressed in and out of handholes located along the route. The handholes will store slack loops of cable and splice cases. The fiber-optic cable will be accessed in these newly installed handholes and transitioned to drop conduits and cables placed to each resident and business that signs up for service. The fiber will ultimately be connected to a NID at the exterior of the location then transitioned by bend insensitive fiber cable to an optical network terminal (ONT) located inside the customer premise. The ONT, a Calix GigaSpire, will include four wired gigabit Ethernet ports and the latest 802.11ax Wi-Fi 6 access point and will provide Wi-Fi coverage throughout the entirety of most homes. Whenever possible, the ONT will be installed in the area of the home where broadband is most heavily utilized. For large homes, Joink will optionally offer additional Calix access points, that will mesh by wired or wireless connectivity back to the ONT to provide additional coverage for mobile devices. Warren County already has terrific quality of place, and this world-class

wired and wireless connectivity will improve the quality of life in Warren County through better access to work from home opportunities, distance learning and telehealth.

Joink has designed the system to service every existing home or business passed. Joink has also sized the fiber cables to support a reasonable level of new homes or businesses constructed along both the middle mile and last mile. Joink has designed signal levels to allow for an XGS-PON overlay in the future, such that additional passive components, and electronics can be installed at Joink’s Warren County remote, and existing customers can be upgraded selectively or entirely to 10 Gb equipment. Given the timing, it is very likely that Joink will go-live with entirely 10 Gb equipment in Warren County. Joink would likely make available, relatively immediately, 1 Gbps, 2 Gbps, and 5 Gbps packages.

Technology Solution	Usable Life
Conduit	50+ Years
Fiber Cable	30+ Years
Splice Cases	20+ Years
Handholes and Customer Premise Outdoor NIDs	15+ Years
Locate Posts	10+ Years
Electronics	5+ Years

Equipment utilized by Joink will include:

- Cisco Distribution Routers
 - NCS540
- Calix OLTs
 - AXOS E7-2 CE201 or XG801
- Calix ONTs
 - GigaSpire BLAST u6x
- Conduit
 - Duraline HDPE Standard
 - Duraline FuturePath (7-way 18/14)
- Handholes
 - Channell BULK 24x36
 - Newbasis 24x36x24
- Fiber Cable
 - Corning ALTOS Loose Tube, Gel-Free, All-Dielectric Cable with Fast Access SMF-28 Ultra Single Mode Fiber (OS2)
 - OFS AllWave+ Fiber (Zero Water Peak) in various jacketed cable (typically ribbon on larger counts, typically gel-free, typically all-dielectric)
- Splice Cases
 - Commscope Fiber Optic Splice Closure (FOSC) 450
- FSTs
 - Commscope Flexible Service Terminal (FST)-T-12NHM2-A0001F

- Further Detail:
 1. XGS-PON
 2. Fiber infrastructure will be Fiber-to-the-Home
 3. Total number of strands proposed in the network
The design will utilize 144 count cable in the backhaul, with laterals of 48, 24, and 12 fibers as appropriate
 4. How many of said strands will be allocated to Warren County for its use
As many as negotiated between the parties (we suggest 2 dark fibers and a Joink lit fiber to each location)

- Proposed phases, cost, and estimated timeline

Joink would execute this project as a single phase, with the following timeline:

June 2022	Begin low-level design, immediately upon notice of award, in parallel to negotiating a final form of contract
July 2022 – February 2023	Complete low-level design (see below)
August 2022 – October 2022	Purchase land for the establishment of remote switching offices (see below)
October 2022 – February 2023	Receive and constrain any required materials not already in Joink inventory (see below)
November 2022 – February 2023	Establish remote switching offices, including the installation of servicing electronics
March 2023 – April 2024	Complete all “passings” (see below)
May 2023 – May 2024	Perform digital marketing, send mailers, sell door-to-door if authorized/appropriate
June 2023 – June 2024	Complete all “connections” (see below)

(see next section for cost)

Low-level design to include:

- Conduct utility coordination meetings, optimizing high-level design for optimum side of road to reduce overlap with existing utilities
- Stake all planned routes from high-level design, capturing points of interest utilizing high precision GPS and digital capture devices
- Review all plat maps, surveys, and other underlying property information to
- Prepare easement packages and obtain from property owners
 - \$1 easements with landowners for all sections of network used to service parties other than the landowner
 - Easement exhibits
- Prepare drawings for permitting
 - Include dimensions of all rights of way
 - Include depiction of planned placement of conduit
 - Include depiction of planned handhole placement
 - Include sequential markings, in feet, of all planned conduit placement

- Include method of conduit placement (bore vs plow)
- Submit low-level drawings for permits
- Drawings for construction
 - Include any required changes by permitting

(Sample low level drawings attached)

Purchase of land:

- Joink prefers to purchase lots for the installation of remote switching offices.
- Lots should be as centrally located to the density of end users as possible.
- Shelters are typically pre-fab and placed on a prepared concrete slab by crane
- Shelters are typically 12x24 or 12x30 with two rooms – one for a generator and one for electronics
- Lot size is typically 50x100 ~ 100x100 (feet)
- Joink would appreciate an opportunity to review any parcels held by county redevelopment and assistance obtaining the necessary zoning for remote telephone switching operations
- Lots with easy access to reliable power and natural gas preferred

Receive and constrain any inventory needed:

- Joink is in the process of exponentially increasing its inventory levels to care for all anticipated materials needed for the next two-years of construction.
- Joink is in the process of purchasing all materials that would be needed to complete this project
- If not utilized on this project, Joink will utilize the materials on other planned future projects
- Materials will include but not be limited to:
 - Conduit (1.25" and Future Path 7-way 18/14)
 - Handholes (24x36)
 - Splice Case (FOSC 450 C)
 - 24-, 48-, and 144-count fiber cable
 - FSTs
 - MST Cables
 - Electronics for placement in remote switching offices
 - Electronics for placement in customer premises

Passings to include:

- Installing conduit (likely 7-way Duraline 18/14) in right of way and a limited number of private easements (only where there is no available right of way to reach the home)
- Installing handholes
- Placing cable in conduit and handholes
- Placing splice cases and FSTs in handholes
- Performing all necessary splicing and testing each FST by light meter and OTDR

Connections to include:

- Constructing from conduit in right of way to point of entry on home
- Install NID on exterior of home
- Place cable from right of way to NID
- Placing interior electronics (ONT) in home in a central location
- Place cable from NID to interior electronics

- Place additional electronics in larger homes when needed (typically only those over 5,000 square feet) (\$10 per additional managed AP per month; wirelessly backhauled to ONT but wired upon request on a cost recovery basis)
- Perform OTDR test from ONT location and save
- Perform light meter test from ONT location and save
- Test WiFi signal strength from electronics and save results
- Provide up to one-hour of assistance to customer with reconfiguring any devices in the home to utilize the new service (additional time available on a cost recovery basis)
- Respondent should fully detail the information and/ or support that would be required from the Warren County Commissioners in order to meet the proposed timelines, including, but not limited to financial contribution, permits, consents, approvals, authorizations; access to available assets including fiber, conduits, real estate, and/ or vertical assets; public outreach and education campaigns; and network testing
 - Joink is seeking financial contribution from Warren County of \$4.25M (a level consistent with that outlined in the RFP). This represents approximately 50% of the estimated project cost (\$6.822M to pass and \$1.627M to connect passed residents). This level of support also “normalizes” the cost to pass these more rural locations to the same cost to pass a residence in Williamsport.
 - Additionally, Joink will invest approximately \$2.662M to pass and \$1.668M to connect passed residents of Williamsport, bringing Joink’s total investment in this project to \$8,554,825, 67% of the full cost of the project.
 - Joink is not seeking access to Warren county-owned assets, except for public rights of way.
- Please confirm timeline to procure material and labor to meet the installation as proposed in your solution(s). Note any supply chain and/or labor needs or issues upon which the timeline is contingent. The Respondent shall further provide its plan for training and staffing of the Project to overcome any labor shortages.
 - Joink does not anticipate any supply chain issues as a result of its current order forecasts and experience
 - Joink is actively expanding its labor force and is evaluating the use of contractor(s) as a contingency
- Scalability of the proposed Broadband Infrastructure as residential, commercial, and institutional bandwidth demands in Warren County continue to increase.
 - The network constructed under this response will scale because of new technologies with increased modulation and multiplexing. The conduit will also support replacing the initial cable with new cable(s) as the technologies emerge.
- Whether the Respondent currently owns and/ or operates broadband infrastructure within Warren County and how would such infrastructure be contributed to the Project.
 - Joink does not currently own or operate broadband infrastructure within Warren County. Joink’s network currently ends just South of the Warren County border in Vermillion County.
- The County would prefer an open access network, detail how the Respondent will ensure open access of the Broadband Infrastructure and what carriers, ISPs, data centers, etc. are currently utilizing the Respondent’s network(s) within Warren County or otherwise.

- Joink is an established last-mile vendor to other carriers and ISPs. Joink will resell connectivity in Warren County to other providers consistent with its past practices in Clay, Parke, Sullivan, Vermillion, and Vigo County.
- How does the Respondent ensure user protections?
 - Joink provides constant security monitoring of the Internet assets, consistent which that is typically applied to service provider networks, with more emphasis on DDOS and traffic patterns, and less on inspection of traffic, which is typically performed by end user firewalls.
- Any Respondent awarded under this RFP shall deliver service of at least 100 Mbps download/ 20 Mbps upload and scalable to meet, or exceed, 100 Mbps download and 100 Mbps upload (“symmetrical”) service to end-users in Warren County. Please detail how the Respondent ensure that the requisite broadband speeds are delivered to end users and provide information of such speeds to Warren County and/or such users.
 - Joink provides ongoing capacity management and planning to assure internet traffic throughput meets the speed packages sold to customers (which will not be less than 100 Mbps download and 20 Mbps upload).
- What percent of Warren County residents will be served with 100 Mbps download/ 20 Mbps upload, or greater, broadband service upon completion of the proposed Project? What percentage of Warren County residents will be served with 100 Mbps download/ 100 Mbps upload symmetrical, or greater, broadband service upon completion of the proposed Project?
 - Joink’s proposed solution will bring service to 2,060 locations, which represent 51.6% of the locations provided in the County’s KMZ file. All of the locations will be offered 1,000 Mbps download/1,000 Mbps upload.

4. Respondent Pricing Components

- Joink’s standard service package tiers are:

	<i>Downstream/ Upstream Bitrate (Mbps)</i>	<i>Latency (ms)*</i>	<i>Usage Limits</i>	<i>Total Upfront Costs**</i>	<i>Total Monthly Cost</i>
Residential 300	300/300 Mbps	9 ~ 12	No data caps	\$0	\$69
Residential 500	500/500 Mbps	9 ~ 12	No data caps	\$0	\$99
Residential 1000	1000/1000 Mbps	9 ~ 12	No data caps	\$0	\$129
Business 50	50/50 Mbps	9 ~ 12	No data caps	\$0	\$99
Business 100	100/100 Mbps	9 ~ 12	No data caps	\$0	\$149
Business 250	250/250 Mbps	9 ~ 12	No data caps	\$0	\$199
Business 500	500/500 Mbps	9 ~ 12	No data caps	\$0	\$299
Business 1000	1000/1000 Mbps	9 ~ 12	No data caps	\$0	\$499

* Round trip time to common internet targets (Netflix, Yahoo, Google, Microsoft, Akamai).

** For locations passed (passed means within 100 feet of the “passing” mainline cable).

For all locations passed on the enclosed maps, Joink has decided to waive all installation fees out of respect for the flexibility that the county funding will provide. This decision to eliminate installation fees represents a calculated risk on Joink’s behalf to make connections more

affordable and accessible, saving residents and businesses cost while creating high quality accessibility.

For locations not passed within 100 feet, Joink offers a fee not to exceed \$15 per foot (for the two-year construction period and a two-year period thereafter) to connect a customer premise.

- Joink's pricing is provided to potential customers through Joink's website, materials, and call center staff. Any changes to the pricing structure is updated in each of those locations and communicated directly to any current customers impacted.
- Joink generally provides 7 AM – 5 PM telephone support to residential and small business customers with its captive staff in Terre Haute. 5 PM – 7 AM coverage is offered through Joink's after-hours over-flow support staff who are able to escalate issues to senior on-call Joink staff when the issues impact multiple customers and are not able to be resolved over the phone. Joink's network management system is a collection of software tools that proactively identifies issues and reactively dispositions issues through the raising of alerts to on-call staff. On-call staff is notified of calls and issues through a software system called PagerDuty which allows issues to be escalated until resolved, ultimately notifying the Joink President & CEO if certain outages go unresolved beyond established thresholds. Joink monitors and administers the Internet assets twenty-four (24) hours a day, seven (7) days a week, three hundred sixty-five (365) days per year. Joink provides preventative maintenance to its electronics, including its electronics installed at customer premises, whenever possible through proactive installation of patches, upgrades, hot fixes, service packs, and updates.
- Joink will be the sole owner and operator of the proposed network.
- If applicable, Respondent should describe additional funding opportunities that could support its efforts with Warren County (for this project or others in the future).
 - Various federal and state broadband initiatives

5. Respondent Existing and Future Operations within Warren County

- Current Respondent office(s) and/or staff within Warren County
 - Joink currently has no offices or staff within Warren County. Joink's home office is located in Terre Haute, with sales, administrative, and customer service personnel headquartered in the office. We think of local as the communities in which we provide service, and will be hoping to add to both our construction and administrative support teams from all neighboring counties. In this project specifically, it is reasonable to expect that Joink will seek a technician to paint locates in response to tickets opened with 811. It is also reasonable to expect that Joink will explore having a technician in the northern portion of its network footprint. Joink continues to explore various work-from-home positions, and with quality broadband deployed in Warren County, it is conceivable that Joink could hire residents of Warren County where travel requirements would be limited.
- Middle mile infrastructure currently owned, leased, or otherwise used by the Respondent in the County
 - Joink currently has no middle mile infrastructure in the County. No additional middle mile construction outside of the project contemplated herein will be needed.
- Last-mile broadband service that the Respondent currently offers in Warren County
 - Joink currently has no last-mile broadband service in Warren County.

- Please detail how the Respondent proposes to work with Warren County
 - Joink has established a reputation for being a trustworthy partner of building highly reliable fiber-optic networks responsibly and in collaboration with its community. Other than fostering a good working relationship for the care and safety of the roads, the support Joink will require from County personnel is simply to be responsive and accurate in performing temporary marking of underground utilities, operated by the county, in response to locate tickets opened by Joink for planned excavation. Joink would expect that the County personnel, or their outside vendors, already perform this work, but the magnitude of this project may require a slightly increased level of staffing and/or locating equipment. Joink has a strong track record of supporting the communities in which it operates. Generally, our workforce is comprised of individuals who live in the communities we serve and through expansion, we would expect that trend to continue. Joink anticipates having a presence in the county as follows:
 - Joink will have a near-daily presence in the county during the design phase of the project.
 - Joink will meet with any other utilities or permitting authorities in person as requested.
 - Joink will continuously construct in the county, except for days with weather conditions that make construction inefficient or unsafe, or are scheduled holidays, or days the county asks Joink not to work due to festivals or other reasons.
 - Joink administrators will attend meetings and community events as requested by the county
 - Joink provides its employees 3 hours per quarter to volunteer for community agencies. If there are opportunities where Joink staff can assist a community agency, Joink will attempt to match those needs to members of the Joink team and encourage participation.
 - Joink is open to ideas about how to partner with area schools and labor agencies to further develop a pipeline of talent to work in various roles at Joink.
- How the Respondent will market the Broadband infrastructure to users in Warren County
 - Please see Exhibit D for Joink brochures and marketing material. No assistance is expected from the Warren County Commissions, but any outreach help at the launch of the project will be helpful. Clearly stated information, regarding monthly service rates and speeds, will always be provided on Joink’s website and in marketing materials.
- Any low-cost offers that would be made available with Respondent’s service, such as the Affordable Connectivity Program (“ACP”). NOTE: Should the Warren County Commissioners contribute a portion of the County’s ARP funds to the Project, the Awardee will be required to participate in the ACP program, per the Federal Rules.
 - Joink will enroll and participate in the ACP program. A Joink subsidiary, Computer Techniques LLC (CTI) that operates in Central Illinois already participates in the program.
- Any additional digital inclusion efforts included in the Respondent’s Project.
 - Joink will work to make access available to community anchor institutions and will also explore activating public hot-spots at safe locations if/as requested by the county.

- How many additional households, businesses, and institutions in Warren County will have access to broadband service as a result of this Project, and at what speed tiers and pricing level. Among the businesses and institutions, please include any small business, elementary school, higher education institution, library, healthcare facility and public safety organization that will have increased access to broadband service.
 - This response will provide 2,060 passings.
 - The network architecture will allow future expansion
 - All small businesses, schools, libraries, healthcare facilities, and public safety organizations passed within the vicinity of the network will be eligible to purchase affordable services.
- Any additional services that will be made available in Warren County through the Respondent's proposed project. This includes, but is not limited to, Internet of Things ("IoT") use cases such as precision agriculture, smart utility monitoring, and others.
 - Joink will be eager to participate in discussions and provide circuits to other IoT or wireless vendors. This fiber network will be a substantial enabler to cellular and other wireless operators (Joink provides connectivity directly or indirectly to all major cellular carriers on its existing fiber network).

6. Specificity of Outcomes

- a. Joink will provide connections to premises in the town limits of Pine Village, West Lebanon, State Line, and Independence as shown in the attached maps (Exhibit A)
- b. Joink will provide fiber connection between Pine Village, Williamsport, West Lebanon, State Line, and Independence as show in the attached maps (Exhibit A)
- c. Joink's plan will allow Joink to deploy, operate, and maintain a fiber internet network which will provide residential customers a minimum of symmetrical 300 Mbps, with a current maximum of symmetrical 1,000Mbps.
- d. To the best of Joink's knowledge, this response, due to the speeds offered, meet ARPA requirements.
- e. Joink will provide connections to all premises within 300' of fiber line. For all locations passed on the enclosed maps, Joink has decided to waive all installation fees out of respect for the flexibility that the county funding will provide. This decision to eliminate installation fees represents a calculated risk on Joink's behalf to make connections more affordable and accessible, saving residents and businesses cost while creating high quality accessibility. For locations not passed within 100 feet, Joink offers a fee not to exceed \$15 per foot (for the two-year construction period and a two-year period thereafter) to connect a customer premise.
- f. Joink, and its consultants, will actively look for and participate in various state and federal opportunities to expand this network toward 100% connectivity of residents and businesses. Joink is also open to utilizing its own, or a partner's overhead fiber lines, as well as its own, or a partner's fixed wireless technologies to connect 100% of residents.
- g. Joink's solution does not exceed \$5M in capital investment from the County.

Joink response to County-favored solutions:

- a) Joink will provide service to 271 locations along the Middle Mile construction path to the Primary Service Areas.

- If base response is selected and awarded, Joink will provide Fiber to the premise in Williamsport (1,043 locations) without any county funds.
- b) Joink will provide the option of 1 gbps symmetrical speeds to all locations.
- c) Availability of additional services
 - Joink currently offers phone services
 - Joink currently provides dark fiber and lit transport to national wireless carriers – this could be a key enabler to increased cell phone service throughout the county
 - All modern streaming solutions should be expected to work on Joink’s platform
 - Joink is open to establishing public Wi-Fi in partnership with community agencies or municipalities
- d) No connection fees - For all locations passed on the enclosed maps, Joink will waive all installation fees if an agreement for county funding is reached. This decision to eliminate installation fees represents a calculated risk on Joink’s behalf to make connections more affordable and accessible. For locations not passed within 100 feet, Joink offers a fee not to exceed \$15 per foot to connect a customer premise.
- e) County control or ownership of portion fiber asset for governmental and economic development use:
 - Joink’s response assumes Joink will maintain ownership and control of the asset, however, Joink is eager to see the asset be as fully utilized as possible and will work with the County to that end
 - Due to the high-uptime and long-useful-life anticipated, it is important that Joink, a qualified operator, be responsible for all construction and maintenance performed on the network.
 - However, it is possible for a portion of the asset to be dedicated for specific use purposes. One approach would be to dedicate specific fiber strands for specific purposes. With dark fiber, full control of the signal placed on the fiber can be maintained by parties other than Joink.
 - Joink has collaborated to provide various services to schools, libraries, hospitals, cities, counties and universities where Joink has constructed dedicated fiber optic connections.
- f) Digital inclusion program:
 - The provision of fiber optic service to as many residents and community agencies as practicable is the best way to provide digital inclusion.
 - Joink is excited to work with Warren County and local communities to maximize digital inclusion.

Appendix A: Solution Overview Sheet

		Proposed solution meeting County's minimum requirements		Respondent Alternative Solution Proposal	
SERVICE OVERVIEW		Circle answer or fill in the answer		Circle answer or fill in the answer	
1	Does the proposal meet ARPA requirements?	Fully <input checked="" type="checkbox"/> - Partially - No		Fully - Partially - No	
2.	Broadband service levels and cost point. Respondent should list their service plan that best matches the service speed tiers listed below.	Plan Speeds (download/upload)	Plan Price Point	Plan Speeds (download/upload)	Plan Price Point
	<i>Example:</i> 100/100 500/500 1G/1G	<i>Plan name</i> ABC plan ABC Plus Plan ABC Best Plan	Providers Speeds 250mb/250mb 400mb/400mb 1G/1G	Monthly cost rate \$65/mo \$85/mo \$105/mo	
2a	100/100		300mb/300mb	\$69/mo	
2b	500/500		500mb/500mb	\$99/mo	
2c	1G/1G		1,000mb/1,000mb	\$129/mo	
2d	Low household income product				
BUILD OVERVIEW					
3,	Number of premises (passings) to be served	2,060			
4.	Number of premises served by wireline to the premise (specify wireline type. Ie fiber, etc)	2,060			
5.	Number of premises served by wireless (if any)	120 miles			
6.	Estimated miles of fiber to be constructed (if any)	Aerial :	Buried: 120 miles	Aerial	Buried
7.	Number of towers to be constructed (if any)

Joink Enters Agreement with DIF Capital Partners: Announces Plans to Expand Residential Fiber Aggressively

TERRE HAUTE, IN: Joink, LLC (“Joink” or the “Company”) recently entered into a definitive agreement with DIF Capital Partners (“DIF”), to be its growth capital partner, opening the door to significantly more investment and growth. Subject to regulatory approval, the partnership with DIF will allow Joink to expand its fiber optic network to residential and enterprise customers at a much faster pace.

Joink started providing Internet service to residents and businesses in Eastern Illinois and Western Indiana in 2001 using fixed wireless. Since 2014, the Company has expanded to serve thousands of end users in West Central Indiana with fiber, including priority infrastructure for education, healthcare, enterprise, and other telecommunications carriers. It has always been Joink’s intention to further extend its fiber to the single-family home and fiber to the multi-dwelling unit offerings. Joink currently has 88 employees and growing.

“We are grateful for the support in growing our business from our team members and their families, our customers, vendors, long-term investors and financing partners, permitting authorities, state and local government, and the communities in which we live and work,” says Josh Zuerner, Joink President and CEO. “That support has enabled us to attract the investment from DIF – a world-class infrastructure investment fund. We don’t take the trust we’ve gained over the last twenty years for granted and will continue to build upon it by showcasing our unwavering commitment to high-quality Internet access.”

“DIF believes the future fiber-to-the-home roll out is critical to ensure that residents in Indiana and Illinois have reliable high-speed Internet access through Joink’s fiber network. DIF is excited to partner with a well-established fiber and fixed wireless company such as Joink and its experienced management team. Joink’s approach to investing in residential fiber infrastructure fits DIF’s ambition to invest in the US fiber industry. In addition to creating local jobs, this investment helps bridge the digital divide in online education, remote employment opportunities, telemedicine and other prospects afforded by broadband access” said Willem Jansonius, Partner and Head of Investments for the DIF CIF strategy.

All existing investors will continue to remain invested in the Company. Hank Stephens, one of the earliest investors in Joink, notes, “When Brian Wick and I decided over 20 years ago to invest in a startup company in Terre Haute called Joink, we were excited about the potential Joink had to provide Internet service to people with limited or no options. As we look back today, I don’t think either of us could have envisioned the tremendous impact that Joink would ultimately have on the residents and businesses of West Central Indiana. We are grateful to the Joink employees as well as our fellow investors who have helped get Joink to where it is today and are excited about this new partnership and opportunity to expand further.”

In addition to accelerating Joink’s ability to deliver high-quality fiber-optic and fixed-wireless connectivity to its customers, the partnership with DIF will give Joink access to capital to continue to innovate and expand its offering of hosting and IT managed services.

“West Central Indiana just had a great day,” says Zuerner. “Joink and its newly formed partnership with DIF should result in tremendously more community members connected with Joink’s high-speed and highly-accessible broadband.”

The partnership helps Joink to take advantage of the considerable funds available for broadband investment offered by local, state and federal governments to provide broadband to underserved communities. Many areas that need to be served still have economic hurdles that will require subsidy. Joink is hopeful that with support at the state or federal level, along with matching local funding, the Company will be able to continue seeking grants to serve low- to moderate-density areas where such grants make the economics feasible.

“We have learned a lot about how people want to work and live over the last two years. Understanding these trends and the important role that quality Internet access plays has created a call to action like we’ve never seen in the space of technology and broadband before. Joink sought a strategic partner to meet the call to action and we look forward to executing with our new partner.” says Zuerner.

Cowen and Company served as financial advisor to Joink.

Agentis Capital served as financial advisor to DIF.

###

About Joink, LLC - Joink is Midwest’s leading providers of wireless Internet service in rural markets in Indiana and Illinois. Joink has installed over 540 miles of fiber in the five-county area and offers service to enterprise, commercial, carrier, and residential customers. Joink’s main fiber network ring connects Vigo, Vermillion, Parke, and Clay County. It also has fiber-optic assets throughout Sullivan County. Joink operates over 100 fixed-wireless transmit points. Building and maintaining a large network requires tremendous knowledge and expertise, and customers grew to recognize and count on that expertise. As a result, they increasingly leaned on Joink to assist them when faced with technology challenges. Joink addresses these challenges through its Hosting, Technology Services, and Managed Services divisions. Last year, the State of Indiana awarded seven Indiana Next Level Connects Projects to Joink. Additionally, Vigo County Government and the City of Terre Haute supported the Vigo County School Corporation in extending Joink’s network to 84 community access locations. More info: www.joink.com

About DIF Capital Partners - DIF Capital Partners is a leading global independent fund manager, with more than €9.0 billion in assets under management across nine closed-end infrastructure funds and several co-investment vehicles. DIF Capital Partners invests in greenfield and operational infrastructure assets located primarily in Europe, the Americas, and Australasia through two complementary strategies:

- Traditional DIF funds, of which DIF Infrastructure Fund VI is the latest vintage, target equity investments with long-term contracted or regulated income streams including public-private partnerships, concessions, utilities, and (renewable) energy projects.
- DIF CIF funds target equity investments in small to mid-sized economic infrastructure companies in the telecom, energy, and transportation sectors.

DIF Capital Partners has a team of over 160 professionals, based in ten offices located in Amsterdam (Schiphol), Frankfurt, London, Luxembourg, Madrid, Paris, Santiago, Sydney, Toronto and New York. For further information please visit www.dif.eu.

Exhibit C - Joink Company History

Joink, LLC was organized in 2003 predominantly as a dial-up internet service provider and quickly evolved into one of the Midwest's leading providers of fixed wireless Internet service in rural markets in Indiana and Illinois. Building and maintaining a large wireless network requires knowledge and expertise, and along the way, Joink's customers grew to recognize and count on that expertise. As a result, they increasingly called on Joink to assist them when faced with technology challenges. As Joink grew the Technology Services group, which provides IT consulting to business and enterprise customers, Joink found that its customers wanted better connectivity than what was provided by the incumbent carriers. Joink was often able to satisfy customer needs by implementing licensed fixed wireless connections, but those only benefited the customers on each end. After spending considerable capital dollars to upgrade those links, Joink began to realize it could implement fiber between the locations and provide service to the customers passed, in addition to the endpoints. From the very beginning, Joink implemented its network to meet the demands of the enterprise customers at each end of a constructed segment but designed the network to one day service everyone passed. Joink expanded from enterprise to small business, then to apartment buildings, and more recently to single family homes.

Joink's management team is led by Josh Zuerner. Josh became President & CEO of Joink in 2012 and was instrumental in leading the company through its growth in delivering world-class connectivity solutions over its own fiber-optic infrastructure.

Joink is registered to do business in the State of Indiana. Joink holds a certificate of territorial authority issued by the Indiana Utility Regulatory Commission on February 1, 2012.

Joink has over 200 employees, more than 40 of whom are focused solely on construction. Joink has over 170 pieces of construction equipment in its fleet (trucks, trailers, excavators, drills, plows, vacuums, splicing trailers, cable blowing machines, reel trailers, etc.). Joink's 50,000 square foot warehouse is located in nearby Terre Haute. Joink is proficient at designing, constructing, activating, documenting, and maintaining fiber-optic networks. Joink is entirely self-sufficient and has no dependencies on any outside vendors, except those who supply materials and restore hard surfaces, to be able to complete the project.

Organization's services, products, and capabilities:

Joink operates as a single entity with four different lines of business – connectivity, hosting, technology services, and managed services. Connectivity includes fiber-optic and fixed-wireless. Hosting includes web, email, storage, and virtual machine hosting. Technology services includes core router, core switch, physical and virtual security, and other consultative and value-added reseller business lines. Finally, managed services include providing ongoing IT software subscriptions and services, on a per user or per device basis.

Company capacity to handle a project of this size and complexity:

Joink currently has four construction crews in place and plans to add approximately one construction crew per month of capacity as it expand its business plan to include more fiber to the home.

Similar Projects:

Joink was awarded seven projects from the Office of Community and Rural Affairs (OCRA) Next Level Connections Round 2 grant program in 2020. The grants were for \$1,923,434 in state funding to construct \$2,404,292 in network.

Joink was also awarded five projects through Next Level Connections Round 3 program that was announced early this year (April 2022) for projects located in West Central Indiana – 1 per each county. These grants were for \$10,344,642 in state funding and \$2,852,158 in local funding to construct \$15,283,477 of network.

Joink has worked to provide community access locations in partnership with the City of Terre Haute and Vigo County government and the Vigo County School Corporation under the Governors' Emergency Education Relief Fund (GEERs) grant to allow students within VCSC to access the school corporations' network at these locations to help them during e-learning days. These grants totaled \$1,379,379 of state funds, \$2,805,056 in county funds, and \$543,580 in city funds.

In every case, these projects have resulted in Joink expanding its fiber optic network and making its services available to those passed. Joink has established a reputation for being a trustworthy partner of building highly reliable fiber-optic networks responsibly and in collaboration with its community to address digital inclusion.

Exhibit A - Statement of Work

Subcontractor: Warren County

Project: **Warren County Broadband**

Purpose of agreement:

This document outlines the general scope of work for the above-named project based on the signed contract between Greater Lafayette Commerce Community & Economic Development Foundation, Inc and Warren County.

Project Description (Long): A private-public-partnership with Joink, an Indiana based service provider, will create the county's first ever fiber broadband services for residential customers. The county is largely considered unserved or underserved by FCC broadband standards which severely hinders the attraction/retention of workforce and the development of housing. The County has committed a minimum of \$1.5M toward and Joink is committing \$8.5M toward this initial project. Fiber access to approximately 2000 residences will occur. \$1.5M of READI funds will be used in ARPA compliant portions of the project serving approximately 1000 unserved or underserved homes as defined by the FCC. The county is 15 minutes from significant job creation near Purdue University and recognizes the criticality of broadband infrastructure to support workforce growth. The project is expected to start in July 2023 and end in June 2025. The READI funds will be used toward the first phase of the project and will install the middle mile, build out State Line City, and passings along the middle mile fiber route to State Line City.

Project Description (Short): A first-in-the-county residential fiber broadband project will lay over a 100 miles of fiber, fiber connect 60%+ of residents, and make over 100 parcels ready for housing development. READI dollars will be used to connect homes meeting ARPA compliance requirements. The READI funds will be used toward the first phase of the project and will install the middle mile, build out State Line City, and passings along the middle mile fiber route to State Line City. The county is 15 minutes from significant job creation near Purdue University and recognizes the criticality of broadband infrastructure to support workforce growth. The project is expected to start in July 2023 and end in June 2025.

Region	Greater Lafayette Region
Legal Name	Greater Lafayette Commerce Community & Economic Development Foundation, Inc.
Region ID	42372
Project ID	00381
Project Name	Warren County Broadband
Reimbursement Start Date	1/1/2022
Reimbursement End Date	12/31/2026
Assigned IEDC Regional Manager	Kurt Fullbeck

Request Reimbursement

Step 1: Fill out the three tabs highlighted in orange based on the type of expense you are seeking reimbursement for. Examples of the types of expenditures that should be included on each tab are listed below. Please note this list is not exhaustive; each disbursement request will be evaluated on a case by case basis.

Note: Use the below information to understand what documents are required for compliance. Additional columns are provided on the tabs to further help you identify the necessary documentation.

Step 2: Complete the Exhibit B Claim Voucher. Please note the expenditure amounts are prepopulated and should remain in formulas from the three orange tabs.

Step 3: Upload completed workbook into the GMT disbursement request, including the files that are being referenced. The GMT line item number should be consistent (directly tie) to the number on GMT where you are uploading the related documents. (This will be the case for purchases and contractual expenses, but would not apply to the personnel tab).

Refer to section 4 and 6 of the IEDC Grant Agreement for the terms and conditions for reimbursement.

Regions are required to maintain all supporting documentation, including evidence of vendor payment, for a minimum period of 5 years after the termination of the project. Refer to the record keeping requirements in the Compliance and Reporting Guidance.

Tab	Examples of which tab expenses should be recorded
Total Personnel Expenses	Personnel expenses would be admin hours directly charged by the region/project. There should not be invoices or contractual agreements associated with these costs. <ul style="list-style-type: none"> - Hours incurred for <ul style="list-style-type: none"> - Program administration - Project monitoring - Reporting - Indirect/overhead costs
Total Purchases	Purchase expenses would be one-time purchases and one-day services. <ul style="list-style-type: none"> - Equipment - Materials - Supplies
Total Contractual Expenses	Contractual expenses would be expenses that have contractual agreements that will take place over time and may consist of multiple invoices. <ul style="list-style-type: none"> - Rent - Contractors - Lawyer/Consultant Fees - Construction Labor Costs

List of required documentation to be submitted with each claim voucher based on the procurement threshold (as applicable):	
Purchases under \$10,000:	<ul style="list-style-type: none"> - Purchase order (if applicable)* - Contract/service agreement (if applicable)* - Invoice - Proof of service

Purchases between \$10,000 and \$250,000:	<ul style="list-style-type: none"> - Evidence of a minimum of 2 quotes - Vendor selection rationale - Purchase order (if applicable)* - Contract/ service agreement* - Invoice - Proof of service
Purchases over \$250,000:	<ul style="list-style-type: none"> - Request for Proposal/Quote* - Evidence that the bid was publicly solicited* - Bid tabulation or proposals submitted* - Vendor selection rationale* - Purchase order (if applicable)* - Contract/ service agreement* - Invoice - Proof of service
*Procurement documentation only needs to be provided during the first disbursement request for each vendor.	
Note: Procurement thresholds are based on total contract/quote amounts. It is NOT based on READI reimbursement amounts.	
Note: If you do not have any of the suggested documents, please provide a memo detailing the rationale/process used.

[REST OF PAGE LEFT INTENTIONALLY BLANK.]

Exhibit D – Reimbursement Schedule

This is a cost reimbursement contract. An agreement between Greater Lafayette Commerce Community & Economic Development Foundation, Inc. and the subcontractor. The subcontractor will be reimbursed for costs that are reasonable, allowable, and allocable according to the contract terms, conditions and budget (Exhibit B).

The subcontractor will submit invoicing on a monthly basis for reimbursement using the provided claim form (Exhibit C).

Exhibit E

PROJECT TIMELINE AS OF 8/4/2023

Summary Timeline

May 2023 - COMPLETED	Begin low-level design immediately upon notice of award, in parallel to negotiating a final form of contract
Aug 2023	Complete low-level design
Aug 2023	Complete permitting process, including county, state, and rail crossings
Aug 2023 - Jun 2024	Construct Middle Mile mainline
Oct 2023 - Aug 2024	Construct town buildouts
Oct 2023 - Jun 2024	Perform digital marketing, send mailers, sell door-to-door if authorized/appropriate
Nov 2023 - Sep 2024	Complete all passings

Timeline Penalties:

Design	\$250/day/location
COMPLETED	State Line City permitting submitted
8/15/2023	West Lebanon permitting submitted
9/15/2023	Pine Village permitting submitted
Last Mile Construction	\$250/day/site
10/30/2023	State Line City construction started
1/25/2024	West Lebanon construction started
6/18/2024	Pine Village construction started

Exhibit F

GRANT AGREEMENT

This Grant Agreement (the “**Grant Agreement**”), entered into by and between the **INDIANA ECONOMIC DEVELOPMENT CORPORATION** (the “**IEDC**”) and the **GREATER LAFAYETTE COMMERCE COMMUNITY AND ECONOMIC DEVELOPMENT FOUNDATION, INC., AS FISCAL AGENT FOR THE GREATER LAFAYETTE REGION** (the “**Grantee**”), is executed pursuant to the terms and conditions set forth herein. In consideration of those mutual undertakings and covenants, the parties agree as follows:

1. Purpose of this Grant Agreement; Funding Source.

IEDC is a pass-through subrecipient of federal monies granted from Coronavirus State Fiscal Recovery Funds to the State of Indiana (the “**Federal Program**”). The purpose of this Grant Agreement is to enable the IEDC to award a Grant of \$30,000,000.00 (the “**Grant**”) to the Grantee, a lower tier subrecipient under the Federal Program, for Eligible Costs (as herein defined) to implement programs as outlined in the Grantee’s grant application (the “**Plan**”) including awards (“**Sub-Grants**”) to other public and private entities (“**Subrecipient(s)**”) for the performance of a service or project (individually a “**Project**” collectively the “**Projects**”) as described in **Exhibit A** to this Grant Agreement, which is incorporated fully herein and which may be amended from time to time. The Grant shall be used exclusively in accordance with the provisions contained in this Grant Agreement. The Grant received by the Grantee pursuant to this Grant Agreement shall be used only to implement or fund a Project in conformance with this Grant Agreement and for no other purpose.

A. Grant Information:

- (1) Assistance listing (CFDA) number: 21.027
- (2) Assistance Listing Title: Coronavirus State and Fiscal Recovery Funds
- (3) Federal Award Name: Coronavirus State Fiscal Recovery Funds (SLFRF)
- (4) Federal Award Identification Number: N/A
- (5) Federal Award Date: March 11, 2021
- (6) Name of Federal Agency: U.S. Department of the Treasury
- (7) Subrecipient unique entity identifier(s): DHZAR218XFB3
- (8) If applicable to a Subrecipient, Grantee shall require any such Subrecipient to provide their indirect cost rate, as defined in 2 CFR § 200.414, as amended from

time to time, for Sub-Grants. Such information shall be posted to the Grant Management Tool at the direction of the IEDC.

(9) “**Eligible Costs**” are defined as:

a. Statutory Uses:

- i. To respond to the COVID-19 public health emergency or its negative economic impacts.
- ii. To respond to workers performing essential work during the COVID-19 public health emergency by providing grants to eligible employers that have eligible workers who performed essential work;
- iii. For the provision of government services, to the extent of the reduction in revenue of such recipient due to the COVID-19 public health emergency, relative to revenues collected in the most recent full fiscal year of the recipient prior to the emergency; and/or
- iv. To make necessary investments in water, sewer, or broadband infrastructure.

b. “**Administrative Uses**”. Administrative Uses shall include but are not limited to project support costs, Grant management, Grant compliance, office personnel, legal fees subject to the limitations of 2 CFR §§ 200.435 and 200.441, accounting fees, audit fees and all other administrative costs not specifically prohibited by this Grant Agreement.

(10) Closeout of Grant: The IEDC and Grantee shall comply with all applicable administrative actions and work required by 2 CFR § 200.344, as amended from time to time.

2. Representations and Warranties of the Grantee.

A. The Grantee expressly represents and warrants to the IEDC that it is eligible to receive Grant funds and that the information set forth in its Plan is true, complete, and accurate. The Grantee expressly agrees to promptly repay all funds paid to it under this Grant Agreement should it be determined that it was ineligible to receive the funds, made any misrepresentation on its Plan or used funds for any purpose or in any manner contrary to or inconsistent with this Grant Agreement.

B. If Grant funds are awarded to a Subrecipient, Grantee shall require each Subrecipient to represent and warrant to the Grantee that it is eligible to receive the Grant funds and that the information set forth in its Claim Form (as herein defined) is complete and accurate. The Grantee agrees to diligently pursue the repayment of all funds paid to said Subrecipient should it be determined that it was ineligible to receive the funds,

made any misrepresentation on its Claim Form or used Grant funds for any purpose or in any manner contrary to or inconsistent with this Grant Agreement or the Claim Form.

- C. The Grantee represents, as is applicable, that it is currently in compliance with and shall remain in compliance with 2 C.F.R. Part 25, requiring registration in the federal System for Award Management (SAM.gov) as amended from time to time, and 2 C.F.R. Part 170, requiring reporting of subaward and executive compensation information, as amended from time to time.

3. Grant Funding.

- A. The IEDC shall fund this Grant in the amount of \$30,000,000.00.
- B. The Grantee agrees that local and private dollars will be expended by the Grantee and Subrecipients for projects funded by this Grant at the minimum of a 4:1 ratio to Grant dollars provided under this Grant Agreement by the completion of the Plan. The 4:1 match must be comprised of a minimum of a 1:1 ratio in Grant dollars to local public funding by the completion of the Plan. Public funding may, as appropriate, include private non-profit economic development organizations and foundations. Grantee must provide evidence of compliance with this paragraph 3(B) upon completion of the Plan in a format designated by the IEDC.
- C. The disbursement of Grant funds to the Grantee shall not be made until all documentary materials required by this Grant Agreement have been received and approved by the IEDC and this Grant Agreement has been fully approved by the State of Indiana (the "State").
- D. The Grantee shall remain in compliance with the federal statutes and regulations at 2 C.F.R. 200 *et seq.*, the Uniform Administrative Requirement, Cost Principles and Audit Requirements for Federal Awards, including but not limited to Subparts A-F, as required by the Grant. By submitting a claim under Paragraph 6, the Grantee certifies to the IEDC that all payment claims are allowable, allocable, and reasonable in accordance with 2 C.F.R. 200.403 and the other cost principles in Subpart E of Part 200, as all are amended from time to time.

4. Term.

- A. This Grant Agreement is effective January 1, 2022 and shall remain in effect through December 31, 2026 ("**Expiration Date**"). The term of this Grant Agreement may be extended upon the written agreement of the parties and as permitted by State or federal laws governing this Grant.
- B. Grant funds must be obligated by December 31, 2024 ("**Grant Obligation Date**") and may continue to be liquidated through December 31, 2026. On or before June 1, 2023, a plan must be submitted to the IEDC detailing how all currently unobligated

funds will be obligated by the Grant Obligation Date. If Grantee is not able to obligate funds by the Grant Obligation Date, the IEDC may reallocate Grant funds.

- C. Project Claim Forms, as further defined in Paragraph 5 below, must be submitted to the IEDC for approval by June 30, 2023, unless an extension of time has been granted in writing.
- D. The Grantee shall have sixty (60) days following to the Expiration Date to submit all final claims for disbursement of Grant funds under this Grant Agreement.
- E. Any provisions which, by their nature, are intended to apply after the termination of this Grant Agreement shall survive the termination of the Grant Agreement until their purposes are fulfilled.

5. Implementation of and Reporting on the Plan.

- A. The Grantee shall be solely responsible for carrying out all planning and coordination activities necessary to distribute Grant funds and implement those Projects selected from the Plan in accordance with this Grant. Modification of the Plan shall require prior written approval of the IEDC, which approval shall not be unreasonably withheld or delayed.
- B. For each Project for which the Grantee requests disbursement of funds, the Grantee shall submit to IEDC a Project Claim Form (the “**Claim Form**”).
 - (1) The Claim Form, attached herein by reference, will be made available to the Grantee through an online Grant Management Tool or file sharing platform (the “**Grant Management Tool**”), which is attached herein by reference and subject to reasonable modification over time.
 - (2) A separate Claim Form must be completed for each Project.
 - (3) Each Claim Form shall include:
 - (a) A detailed description of the Project and its alignment with the Plan (if not already a part of the Plan).
 - (b) All required programmatic data and performance indicators, as fully described on the Grant Management Tool.
 - (c) A detailed budget including all sources and uses of funding required to implement the Project (“**Project Budget**”).
 - (i) After the IEDC approves a Claim Form, the Project Budget funded by this Grant Agreement, and those funded by any local and/or private party, shall not experience a Material Change (as herein defined) without the prior

written consent of the IEDC.

- (ii) For any in-kind contribution, the Grantee, or Subrecipient as applicable, shall provide a reasonable value associated with each such contribution. The IEDC may question the value attributed to an in-kind contribution, request supporting documentation, and request an adjustment by the Grantee before a Claim Form is approved.
 - (d) The amount of any administrative fee to be withheld by the Grantee to implement the Project or for other Administrative Uses, shall not exceed the limits established in Paragraph 5.C. of this Grant Agreement, and Grantee shall provide a detailed description of the services that will be rendered by the Grantee with support of the administrative fee.
 - (e) The name and contact information for the Grantee and any Subrecipients, and a certification from the Grantee and Subrecipients that they are in compliance with all applicable State and federal laws.
 - (f) Any other information or documentation required by the IEDC.
- (4) The Grantee may submit Claim Forms for Projects not initially included in the Plan as an additional Project or Projects of the Plan, provided that such Projects may be subject to additional requests for information or documentation from the IEDC. If a Claim Form for a Project not initially included in the Plan is approved by the IEDC, the Project shall automatically become part of the Grantee's Plan.
 - (5) The IEDC shall have thirty (30) days to evaluate a submitted Claim Form and provide notice of its decision to approve or deny the Claim Form. If additional time is needed to evaluate a submitted Claim Form, the IEDC shall notify the Grantee of a date by which its decision can be expected. The IEDC agrees that it will not unreasonably extend any such review.
 - (6) The Grantee understands and agrees that the IEDC retains the right to approve or deny a Claim Form, as solely determined by the IEDC in accordance with this Grant Agreement.
 - (7) The IEDC may condition its approval of a submitted Claim Form as it deems appropriate. The Grantee may then accept, reject, request further revision to the conditional approval, or submit an amended Claim Form. A conditionally approved claim form shall only be considered approved if the Grantee gives written notice of its acceptance of such Claim Form and subsequently provides documentation of its satisfaction of the IEDC's conditions.
 - (8) The IEDC may at any time (before or after the IEDC's approval of a Claim form) request from the Grantee, in writing, any additional information or documentation relating to a Project necessary for the IEDC to perform its obligations under this

Grant Agreement. The Grantee shall use its best efforts to obtain these materials and provide them to the IEDC within a reasonable time period.

- (9) After a Claim Form is approved by the IEDC, the Grantee shall provide notice to the IEDC of any Material Changes to a Project. A “Material Change” occurs when there is any:
 - a. Increase in the total cost of a Project of five percent (5%) or more and which, as a result of that increase, would require additional Grant funds for the Project;
 - b. Change in the nature of a Project from the Grantee’s submission on the approved Claim Form, including a change in how the Grant funds will be used for an approved Project, such as to provide funding for administrative services at a daycare facility rather than to construct the daycare facility.
- (10) After no longer than ten (10) business days after receipt of a notice of Material Change, the IEDC will notify the Grantee if an amended Claim Form is required to proceed with the Project.
- (11) In the event there is a Material Change requiring an amended Claim Form, such Claim Form will be subject to the IEDC’s further approval or denial.
- (12) It is expressly understood and agreed by the Grantee and the IEDC that the Grantee may distribute the funds granted to the Grantee hereunder to Subrecipients (the “**Subrecipients**”) to perform a Project as the Grantee deems acceptable, provided however, the Grantee shall remain obligated to perform all of its obligations under this Grant Agreement and/or to ensure that Subrecipients comply with the same, if applicable.
- (13) The Grantee shall be solely responsible for overseeing and/or completing the proper design and implementation of a Project approved by the IEDC. The Grantee shall make certain that it and any Subrecipient completes an approved Project in accordance with this Grant Agreement, the approved Claim Form, and its Plan.
- (14) The Grantee may enter into any contracts or agreements necessary or incidental to the performance of this Grant Agreement; however, the IEDC shall not be bound by any contracts or agreements of the Grantee’s unless otherwise agreed to by the IEDC in writing.
- (15) The Grantee understands and agrees that the Grantee and any of its own selected Subrecipients are solely responsible for selection of vendors, contractors, other sub-Subrecipients or similar parties for the performance of Projects. The IEDC has no role in selecting a vendor, contractor, Subrecipient (except for approval of the Claim Form), or similar party for the performance of Projects, regardless of whether the Grantee has listed the vendor, contractor, Subrecipient, or similar

party on the Claim Form.

- (16) After a claim form is submitted, the Grantee shall submit to the IEDC, through the Grant Management Tool, written progress reports until the completion of the Project. These reports shall be submitted on a monthly basis not later than the seventh (7th) day of the month following the month subject to the report and shall contain such detail of progress or performance on the Plan and any Projects funded through this Grant Agreement as is requested by the IEDC.
- C. The Grantee and the IEDC agree that a portion of the funds provided under this Grant Agreement may be used for Administrative Uses for the Projects, Federal Program, Grant and to implement the Grantee's Plan in compliance with all applicable State and federal laws. The Grantee shall account for the use of these administrative funds in the monthly report it submits to the IEDC as provided in Paragraph 5(B)(16). The parties agree that:
- (1) The Grantee shall receive one half of one percent (0.50%) of the Grant funds as a reduction of the Grant amount from the IEDC within thirty-five (35) days from the Effective Date, which may be used by the Grantee for Administrative Uses.
 - (2) The Grantee may request, in a submitted Claim Form, to retain up to three percent (3%) of the total cost of each Project from the Grant funds requested in the Claim Form, which may be used by the Grantee for Administrative Uses. No more than three percent (3%) of the total Grant funds may be claimed by the Grantee for its Administrative Uses.
 - (3) The IEDC will retain three percent (3%) of the total Grant funds, as a reduction to the total Grant amount, for the IEDC's costs associated with overseeing this Grant Agreement, monitoring the Grantee's compliance with applicable State and federal laws in accordance with Paragraph 9, and providing advisory services to facilitate the Grantee's successful implementation of its Plan.

6. Payment of Claims.

- A. If advance payment or a working capital advance of all or a portion of the Grant funds for a Project is permitted by statute or regulation, and the IEDC agrees to provide such advance payment or working capital advance, advance payment shall be made only upon submission of a Claim Voucher ("**Claim Voucher**"), attached hereto as **Exhibit B** and made apart hereof, setting out the intended purposes of those funds. After such funds have been expended, Grantee shall provide IEDC with a reconciliation of those expenditures. Otherwise, the Grantee shall review and approve all Claim Vouchers submitted by Subrecipients for Project expenditures eligible for Grant funds, which shall then be reviewed and approved by the IEDC. All requests for Projects performed directly by the Grantee shall be reviewed by the IEDC. Disbursements of Grant funds shall be made by the IEDC within thirty-five (35) days of IEDC approval. As required by IC § 4-13-2-14.8, as amended from time to time, all payments will be

by direct deposit by electronic funds transfer to the financial institution designated by the Grantee in writing unless a specific waiver has been obtained from the Indiana Auditor of State.

- B. Requests for payment will be processed only upon presentation of a Claim Voucher. Such Claim Vouchers must be submitted with an accounting of expenditures organized by Project.
- C. The IEDC may require evidence, furnished by the Grantee, that the Project is materially compliant with the timeline provided in the Claim Form. All payments are subject to the IEDC's determination that the Grantee's, or Subrecipient's, performance to date conforms with the Project as approved, notwithstanding any other provision of this Grant Agreement.
- D. Claim Vouchers shall be submitted to the IEDC within thirty (30) calendar days following the end of the month in which work on or for the Project was performed. The IEDC has the discretion, and reserves the right, to NOT pay any claims submitted later than sixty (60) calendar days following the end of the month in which the services were provided. All final claims and reports must be submitted to the IEDC within sixty (60) calendar days after termination or the Expiration Date. Payment for claims submitted after that time may, at the discretion of the IEDC, be denied. Claims may be submitted on a monthly basis only. Grant funds that have been advanced and are unexpended at the time that the final claim is submitted shall be returned to the State.
- E. Claim Vouchers must be submitted with accompanying supportive documentation, as designated by the IEDC. Claim Vouchers submitted without supportive documentation will be returned to the Grantee and not processed for payment. Failure to correct said issues may result in the denial of a claim for payment.

7. Project Monitoring by the IEDC.

The IEDC may conduct on-site or off-site monitoring reviews of a Project during the term of this Grant Agreement and for up to ninety (90) days after it expires or is otherwise terminated. The Grantee shall extend to the IEDC and its authorized designees its full cooperation and give full access to its Project sites and to relevant documentation; or, if applicable, the Grantee shall require each Subrecipient to provide full cooperation and access to its Project sites and relevant documentation to the IEDC, or its authorized designees, for the purpose of determining, among other things:

- A. Whether Project activities are consistent with those set forth in the Claim Form, including any modification agreed to by the IEDC, and the terms and conditions of the Grant Agreement;
- B. The actual expenditure of State, local and/or private funds expended to date on the Project is in conformity with the amounts for each Project Budget and the Claim Form, and that unpaid costs have been properly accrued;

- C. That Grantee is making timely progress with the Project, and that its project management, financial management, control systems, procurement systems, methods, and overall performance are in conformance with the requirements set forth in this Grant Agreement and are fully and accurately reflected in Project reports submitted to the IEDC.

8. Compliance with Audit and Reporting Requirements; Maintenance of Records.

- A. The Grantee, any fiscal agent of Grantee, and Subrecipients shall submit to an audit by the State, or its authorized designee, of funds paid through this Grant Agreement and shall make all books, accounting records and other documents available at all reasonable times during the term of this Grant Agreement and for a period of five (5) years after final payment for inspection by the IEDC or its authorized designee. One (1) Copy shall be furnished to the IEDC at no cost.
- B. Grantee shall arrange for a financial and compliance audit that complies with 2 C.F.R. 200.500 *et seq.* if required by applicable provisions of 2 C.F.R. 200 (Uniform Administrative Requirements, Cost Principles, and Audit Requirements).
- C. Separate and apart from the Grantee's status in paragraph 8.B, if the Grantee is a non-governmental unit, the Grantee shall file the Form E-1 annual financial report required by IC § 5-11-1-4. The E-1 entity annual financial report will be used to determine audit requirements applicable to non-governmental units under IC § 5-11-1-9. Audits required under this section must comply with the State Board of Accounts ("SBA") Uniform Compliance Guidelines for Examination of Entities Receiving Financial Assistance from Governmental Sources, found at: <https://www.in.gov/sboa/files/guidelines-examination-entities-receiving-financial-assistance-government-sources.pdf>, as amended from time to time.

9. Compliance with Laws.

- A. The Grantee and IEDC shall work together to comply with all applicable federal, state and local laws, rules, regulations and ordinances, and all provisions, including but not limited to federal laws and guidance of the ARPA Act, U.S. Treasury guidance and policies, OMB and SBA policies and procedures for reporting, SBA guidance on administration and tracking of federal COVID funds, and any policies or procedure implemented by IEDC for administration of the program. All such materials required thereby to be included herein are hereby incorporated by reference. The enactment or modification of any applicable State or federal statute or the promulgation of rules or regulations thereunder after execution of this Grant Agreement shall be reviewed by the IEDC and the Grantee to determine whether the provisions of this Grant Agreement require formal modification.
- B. The Grantee and its agents shall abide by all ethical requirements that apply to persons who have a business relationship with the IEDC as set forth in IC § 4-2-6, *et seq.*, IC §

4-2-7, *et seq.* and the regulations promulgated thereunder. **If the Grantee has knowledge, or would have acquired knowledge with reasonable inquiry, that a State officer, employee, or special State appointee, as those terms are defined in IC 4-2-6-1, has a financial interest in the Grant, the Grantee shall ensure compliance with the disclosure requirements in IC § 4-2-6-10.5 prior to the execution of this Grant Agreement.** If the Grantee is not familiar with these ethical requirements, the Grantee should refer any questions to the Indiana State Ethics Commission, or visit the Inspector General's website at <http://www.in.gov/ig/>. If the Grantee or its agents violate any applicable ethical standards, the IEDC may, in its sole discretion, terminate this Grant immediately upon notice to the Grantee. In addition, the Grantee may be subject to penalties under IC §§ 4-2-6, 4-2-7, 35-44.1-1-4, and under any other applicable laws.

- C. The Grantee certifies by entering into this Grant Agreement that, to the best of its knowledge, it is not presently in arrears in payment of taxes, permit fees or other statutory, regulatory, or judicially required payments to the State. The Grantee agrees that any payments currently due to the IEDC may be withheld from payments due to the Grantee. Additionally, payments may be withheld, delayed, or denied and/or this Grant suspended until the Grantee is current in its payments and has submitted proof of such payment to the IEDC.
- D. The Grantee warrants that, to the best of its knowledge, it has no current, pending or outstanding criminal, civil, or enforcement actions initiated by the State, and agrees that it will immediately notify the IEDC of any such actions. During the term of such actions, the Grantee agrees that the IEDC may suspend funding for the Project. If a valid dispute exists as to the Grantee's liability or guilt in any action initiated by the IEDC, and the IEDC decides to suspend funding to the Grantee, the Grantee may submit, in writing, a request for review to the Indiana Department of Administration (IDOA). A determination by IDOA shall be binding on the parties. Any disbursements that the IEDC may delay, withhold, deny, or apply under this section shall not be subject to penalty or interest.
- E. The Grantee warrants that, to the best of its knowledge, the Grantee and any contractors performing work in connection with a Project shall obtain and maintain all required permits, licenses, registrations, and approvals, and shall comply with all health, safety, and environmental statutes, rules, or regulations in the performance of work activities for the State. Failure to do so may be deemed a material breach of this Grant Agreement and grounds for immediate termination and denial of grant opportunities with the State.
- F. The Grantee affirms that, if it is an entity described in Indiana Code Title 23, it is properly registered and owes no outstanding reports to the Indiana Secretary of State.
- G. If the IEDC is asked by the State Budget Agency or any agency or instrumentality of the Federal government to repay any Grant funds that the IEDC has disbursed to Grantee, the Grantee shall, within thirty (30) days, reimburse those funds to the IEDC.

H. As required by IC § 5-22-3-7, as amended from time to time:

(1) The Grantee certifies (and Grantee shall require any Subrecipient to certify) that:

(A) the Grantee (or Subrecipient), except for de minimis and nonsystematic violations, has not violated the terms of:

(i) IC § 24-4.7 [Telephone Solicitation Of Consumers];

(ii) IC § 24-5-12 [Telephone Solicitations]; or

(iii) IC § 24-5-14 [Regulation of Automatic Dialing Machines];

in the previous three hundred sixty-five (365) days, even if IC 24-4.7 is preempted by federal law, all as amended from time to time; and

(B) the Grantee will not violate the terms of IC § 24-4.7 for the duration of this Grant Agreement, even if IC §24-4.7 is preempted by federal law, all as amended from time to time.

(2) The Grantee certifies that an affiliate of the Grantee and any agent acting on behalf of the Grantee or on behalf of an affiliate of the Grantee, except for de minimis and nonsystematic violations,

(A) has not violated the terms of IC § 24-4.7 in the previous three hundred sixty-five (365) days, even if IC § 24-4.7 is preempted by federal law, all as amended from time to time; and

(B) will not violate the terms of IC § 24-4.7 for the duration of this Grant Agreement even if IC § 24-4.7 is preempted by federal law, all as amended from time to time.

I. The Grantee shall complete and return the Information and Questionnaire, attached as **Exhibit C** and incorporated fully herein. In addition, the Grantee shall require all Subrecipients to complete the same prior to any award.

J. Notwithstanding anything herein to the contrary, any obligation, duties or compliance responsibility set forth under this Grant Agreement on Grantee shall rest fully and solely with said Grantee entity and not be an obligation, duty or compliance responsibility of the individual volunteer commissioner, member, officer, agent, or representative serving said Grantee entity, except for any intentional malicious

actions by such individual.

10. Debarment and Suspension.

- A. The Grantee certifies by entering into this Grant Agreement that it is not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from entering into this Grant Agreement by any federal agency or by any department, agency, or political subdivision of the State.
- B. The Grantee certifies that it has verified the suspension and debarment status for all subcontractors, vendors, or other lower tier subrecipients receiving funds under this Grant Agreement and shall be solely responsible for any recoupments or penalties that might arise from non-compliance. The Grantee shall immediately notify the IEDC if any Subrecipient or subcontractor becomes debarred or suspended, and shall, at the State's request, take all steps required by the IEDC to terminate its contractual relationship with the Subrecipient or subcontractor for work to be performed under this Grant Agreement.

11. Drug-Free Workplace Certification.

As required by Executive Order No. 90-5, April 12, 1990, issued by the Governor of Indiana, as amended from time to time the Grantee hereby covenants and agrees to make a good faith effort to provide and maintain a drug-free workplace. Grantee will give written notice to the IEDC within ten (10) days after receiving actual notice that an employee of the Grantee in the State of Indiana, has been convicted of a criminal drug violation occurring in the workplace. False certification or violation of the certification may result in sanctions including, but not limited to, suspension of Grant payments, termination of the Grant and/or debarment of grant opportunities with the IEDC of Indiana for up to three (3) years.

In addition to the provisions of the above paragraphs, if the total amount set forth in this Grant Agreement is in excess of \$25,000.00, the Grantee certifies and agrees that it will provide a drug-free workplace by:

- A. Publishing and providing to all of its employees a statement notifying them that the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance is prohibited in the Grantee's workplace and specifying the actions that will be taken against employees for violations of such prohibition; and
- B. Establishing a drug-free awareness program to inform its employees of: (1) the dangers of drug abuse in the workplace; (2) the Grantee's policy of maintaining a drug-free workplace; (3) any available drug counseling, rehabilitation, and employee assistance programs; and (4) the penalties that may be imposed upon an employee for drug abuse violations occurring in the workplace; and

- C. Notifying all employees in the statement required by subparagraph (A) above that as a condition of continued employment the employee will: (1) abide by the terms of the statement; and (2) notify the Grantee of any criminal drug statute conviction for a violation occurring in the workplace no later than five (5) days after such conviction; and
- D. Notifying in writing the IEDC within ten (10) days after receiving notice from an employee under subdivision (C)(2) above, or otherwise receiving actual notice of such conviction; and
- E. Within thirty (30) days after receiving notice under subdivision (C)(2) above of a conviction, imposing the following sanctions or remedial measures on any employee who is convicted of drug abuse violations occurring in the workplace: (1) take appropriate personnel action against the employee, up to and including termination; or (2) require such employee to satisfactorily participate in a drug abuse assistance or rehabilitation program approved for such purposes by a federal, State or local health, law enforcement, or other appropriate agency; and
- F. Making a good faith effort to maintain a drug-free workplace through the implementation of subparagraphs (A) through (E) above.

12. Employment Eligibility Verification.

As required by IC § 22-5-1.7, as amended from time to time, if the Grantee has employees, the Grantee hereby swears or affirms under the penalties of perjury that:

- A. The Grantee has enrolled and is participating in the E-Verify program;
- B. The Grantee has provided documentation to the IEDC that it has enrolled and is participating in the E-Verify program;
- C. The Grantee does not knowingly employ an unauthorized alien;
- D. The Grantee shall require its contractors who perform work under this Grant Agreement to certify to Grantee that the contractor does not knowingly employ or contract with an unauthorized alien and that the contractor has enrolled and is participating in the E-Verify program. The Grantee shall maintain this certification throughout the duration of the term of a contract with a contractor.

The IEDC may terminate for default if the Grantee fails to cure a breach of this provision no later than thirty (30) days after being notified by the State.

13. Funding Cancellation.

As required by Financial Management Circular 2007-1 and IC § 5-22-17-5, as amended from time to time, when the Director of the State Budget Agency makes a written

determination that funds are not appropriated or otherwise available to support continuation of performance of this Grant Agreement, it shall be canceled. A determination by the State Budget Agency that funds are not appropriated or otherwise available to support continuation of performance shall be final and conclusive.

14. Disputes and Governing Law.

- A. In the event of a dispute between IEDC and the Grantee, other than that addressed by Section 9(D) above, the parties agree to cooperatively negotiate a resolution and escalate to senior management as needed. For any disputes that remain in controversy after thirty (30) days, either party may, at its own expense, initiate legal action. Both parties agree that disputes shall not be arbitrated.
- B. This Grant Agreement shall be governed, construed, and enforced in accordance with the laws of the State of Indiana, without regard to its conflict of laws rules. Suit, if any, must be brought in Marion County, Indiana.

15. Information Technology Accessibility Standards.

Any information technology related products or services purchased, used, or maintained through this Grant must be compatible with the principles and goals contained in the Electronic and Information Technology Accessibility Standards adopted by the Architectural and Transportation Barriers Compliance Board under Section 508 of the federal Rehabilitation Act of 1973 (29 U.S.C. §794d), as amended from time to time. The federal Electronic and Information Technology Accessibility Standards can be found at: <https://www.access-board.gov/ict.html>.

16. Insurance.

The Grantee shall maintain insurance with coverages in such amount as may be required by the IEDC or as provided in its Grant Application.

17. Nondiscrimination.

Pursuant to the Indiana Civil Rights Law, specifically IC § 22-9-1-10, as amended from time to time, and in keeping with the purposes of the federal Civil Rights Act of 1964, the Age Discrimination in Employment Act, and the Americans with Disabilities Act, the Grantee covenants that it shall not discriminate against any employee or applicant for employment relating to this Grant with respect to the hire, tenure, terms, conditions or privileges of employment or any matter directly or indirectly related to employment, because of the employee or applicant's: race, color, national origin, religion, sex, age, disability, ancestry, status as a veteran, or any other characteristic protected by federal, State, or local law ("Protected Characteristics"). Furthermore, Grantee certifies compliance with applicable federal laws, regulations, and executive orders prohibiting discrimination based on the Protected Characteristics in the provision of services.

The Grantee understands that the IEDC is a recipient of federal funds, and therefore, where applicable, Grantee subrecipients, and subcontractors shall comply with requisite affirmative action requirements, including reporting, pursuant to 41 CFR Chapter 60, as amended, and Section 202 of Executive Order 11246 as amended by Executive Order 13672, all as amended from time to time.

18. Notice to Parties.

Whenever any notice, statement or other communication is required under this Grant Agreement, it will be sent by E-mail or first class U.S. mail service to the following addresses, unless otherwise specifically advised.

A. INDIANA ECONOMIC DEVELOPMENT CORPORATION

Attn: General Counsel
One North Capitol Avenue, Suite 700
Indianapolis, IN 46204-2288
reports@iedc.in.gov

B. Notices to the Grantee shall be sent to:

Kris Brock, Grant Administrator
Greater Lafayette Commerce Community and Economic Development Foundation
337 Columbia Street
Lafayette, IN 47905
Email: kbrock@greaterlafayettecommerce.com

19. Order of Precedence; Incorporation by Reference.

Any inconsistency or ambiguity in this Grant Agreement shall be resolved by giving precedence in the following order: (1) requirements imposed by applicable federal or State law, including those identified in paragraph 9, above; (2) this Grant Agreement; (3) Exhibits prepared by the IEDC; (4) the Grant Management Tool; (5) the Plan; and (6) Exhibits prepared by Grantee. All of the foregoing are incorporated fully herein by reference.

20. Public Record.

The Grantee acknowledges that the IEDC will not treat this Grant Agreement as containing confidential information and will post this Grant Agreement on the transparency portal as required by Executive Order 05-07 and IC § 5-14-3.5-2, as amended from time to time. Use by the public of the information contained in this Grant shall not be considered an act of the State.

21. Termination for Breach.

A. Failure of the Grantee, for a Grantee Project, to complete the Project and expend Grant funds in accordance with this Grant Agreement may be considered a material breach

and shall entitle the IEDC to suspend Grant payments associated with said Project, and to suspend the Grantee's participation in State grant programs until such time as all material breaches are cured to the State's satisfaction.

- B. The Grantee shall require each Subrecipient to warrant to complete its Project and expend Grant funds in accordance with this Grant Agreement. Breach of said warranty shall entitle the IEDC to suspend Grant payments associated with said Project, and to suspend the Subrecipient's receipt of Grant funds.
- C. The expenditure of Grant funds other than in conformance with this Grant Agreement may be deemed a breach. The Grantee explicitly covenants that it shall within thirty (30) days repay to the IEDC all funds not spent in conformance with this Grant Agreement. If IEDC is subject to any fine, penalty or fee as a result of the Grantee's improper expenditure of Grant funds, the Grantee shall fully reimburse the IEDC for any incurred expense.

22. Termination for Convenience.

Unless prohibited by a statute or regulation relating to the award of the Grant, this Grant Agreement may be terminated, in whole or in part, by the IEDC whenever, for any reason, the IEDC determines that such termination is in the best interest of the State. Termination shall be effected by delivery to the Grantee of a Termination Notice, specifying the extent to which such termination becomes effective. The Grantee shall be compensated for completion of the Project properly done prior to the effective date of termination. The IEDC will not be liable for work on the Project performed after the effective date of termination. In no case shall total payment made to the Grantee exceed the original Grant. In all instances of termination for breach or for convenience, the subrecipient will be provided notice and an opportunity for a hearing according to 2 CFR 200.340 through 200.343, as amended from time to time.

23. Travel.

No expenses for travel will be reimbursed.

24. Provision Applicable to Grants with tax-funded State Educational Institutions: "Separateness" of the Parties.

The IEDC acknowledges and agrees that because of the unique nature of State Educational Institutions, the duties and responsibilities of the State Educational Institution in these Standard Conditions for Grants are specific to the department or unit of the State Educational Institution. The existence or status of any one contract or grant between the IEDC and the State Educational Institution shall have no impact on the execution or performance of any other contract or grant and shall not form the basis for termination of any other contract or grant by either party.

25. Assignment.

The Grantee shall not assign this Grant Agreement without advanced approval from IEDC. Unauthorized assignment is a material breach of this Grant Agreement.

26. Subrecipient Agreements.

After approval of a Claim Form by the IEDC, the Grantee may enter into “**Subrecipient Agreements**” with Subrecipients for an approved Project. The Grantee shall flow down all federal and State regulatory provisions and clauses that are herein or incorporated herein and applicable to Subrecipients. All elements required by 2 CFR § 200.332(a) shall be included in the subawards made by the Grantee.

27. Non-Waiver and Severability.

Failure of either party to insist upon strict performance of any term or condition herein or to exercise any rights or remedies shall not be construed as a waiver of that party’s right to assert any of the same or rely on any such term or condition at any time thereafter. Invalidation of any term, in whole or in part, shall not affect the validity of the other parts.

28. Non-Collusion, Acceptance.

The undersigned attests, subject to the penalties for perjury, that the undersigned is the Grantee, or that the undersigned is the properly authorized representative, agent, member, or officer of the Grantee. Further, to the undersigned’s knowledge, neither the undersigned nor any other member, employee, representative, agent, or officer of the Grantee, directly or indirectly, has entered into or been offered any sum of money or other consideration for the execution of this Grant Agreement other than that which appears upon the face hereof. **Furthermore, if the undersigned has knowledge that a state officer, employee, or special state appointee, as those terms are defined in IC § 4-2-6-1, has a financial interest in the Grant, the Grantee attests to compliance with the disclosure requirements in IC § 4-2-6-10.5, all as amended from time to time.**

29. Indemnification.

Unless due to the negligence the IEDC, the Grantee shall indemnify, defend, and hold harmless the IEDC and the State of Indiana and their respective agents, officers, employees and representatives from all third party claims and suits for loss or damage to property, including the loss of use thereof, and injuries to or death of persons, including without limitation any officers, agents, employees, and representatives of the Grantee or its subcontractor(s), and from all judgments recovered therefrom and for expenses in defending any such claims or suits, including court costs, attorneys’ fees, and for any other expenses caused by an act or omission of the Grantee and/or subcontractor(s), agents, officers, or employees in connection with performance of this Grant Agreement. The IEDC shall not provide such indemnification to Grantee.

30. Public Relations and Marketing.

All external facing communications related to this Grant and the Plan, including but not limited to marketing, public relations and social media materials and content, shall be developed in consultation with the IEDC and receive IEDC and Grantee written approval prior to publication. Communications should include appropriate reference to the IEDC as an investor, partner and/or sponsor of the program or initiative that is the subject of this Grant, including the use of the IEDC logo and IEDC social media tags and reference to IEDC social media accounts. All communications required under this paragraph shall be sent to READI@iedc.in.gov.

31. Use of the IEDC Name.

The IEDC has not granted any rights to use its name, trademark, intellectual property, or logos. The Grantee agrees that it will not use the name or intellectual property, including, but not limited to, IEDC trademarks or logos, in any manner, including commercial advertising or as a business reference without the prior written consent of the IEDC. In all cases in which the IEDC's participation will be referenced, the IEDC shall have the right of review and approval of the use, disclosure, and the finished product prior to its publication. All such requests shall be made in writing and delivered to the IEDC for approval at its sole discretion.

32. Obligations Limited to Grantee. Notwithstanding anything herein to the contrary, any obligation, duties or compliance responsibility set forth under this Grant Agreement on Grantee shall rest fully and solely with said Grantee entity and not be an obligation, duty or compliance responsibility of the individual volunteer, commissioner, board member, member, officer, agent, or representative serving said Grantee entity, except for any intentional malicious actions by such individual.

Signatures on Following Page -- Remainder of Page Intentionally Left Blank

In Witness Whereof, the Grantee and IEDC have, through duly authorized representatives, entered into this Grant Agreement. The parties, having read and understand the foregoing terms of this Grant Agreement, do by their respective signatures dated below hereby agree to the terms thereof.

EXHIBIT F

INSTALLATION TERMS

1. Consumer shall inform Joink of any known private utilities or other known underground obstacles on the property that may materially interfere with the underground installation of Cable (at Joink's option the Cable may be placed in conduit).
2. Consumer shall inform Joink of its intended location of use of service, so that Joink technicians may optimize wireless and wired coverage within the Consumer premise.
3. Joink shall install equipment that provides at least four (4) wired Ethernet ports and integrated WiFi coverage.
4. Joink shall offer optional wireless extenders at an initial price not to exceed Ten Dollars (US\$10.00) per month if Consumer premises is larger than the standard device covers.
5. Consumer shall provide adequate power and space for the wired and wireless equipment installed in the Consumer premises in accordance with manufacturer requirements.
6. Consumer shall provide Joink with reasonable access for repair and maintenance.
7. Electronics and fixtures installed by Joink shall at all times remain the sole property of Joink whether or not affixed or attached to the space or the Consumer premises, and Consumer will waive any right it has now or will have in the future to assert a lien of any kind against Joink's property.
8. Consumer shall agree to never knowingly allow interception, splicing, or access to Joink conduit or fiber optic cable installed on the Consumer premises without Joink's express written approval.
9. Consumer shall agree that Joink, at its sole election, may leave its electronics and other equipment installed at the Consumer premises, for the next occupant of the Consumer premises, when Consumer cancels service related to the sale or vacation of the Consumer premises.

** Standard terms and conditions for commercial (MSA, Order, Entrance Agreement) and residential orders are attached. Joink reserves the right to change its standard terms and conditions from time to time at its sole discretion as long as those new terms and conditions are not less favorable to the Consumer or County.*

Exhibit G

EXHIBIT G

INSTALLATION CREDIT PLAN

1. The Installation Credit Plan (“**Credit**”) applies to installations greater than one hundred (100) linear feet to Consumer.
2. Credit will be defined by linear feet of installations equivalent to the cost of installations greater than one hundred (100) feet at a rate of Fifteen Dollars and No Cents (US\$15.00) per linear foot:
 - a. There is a total Credit of One Million Three Hundred Seventy-Seven Thousand Fifty-One Dollars and No Cents (US\$1,377,051.00).
 - b. The Credit applied to installations of one hundred (100) to three hundred (300) linear feet is Seven Hundred Forty-Four Thousand Fifty-One Dollars and No Cents (US\$744,051.00).
 - c. The Credit applied to installations greater than three hundred (300) is Six Hundred Thirty-Three Thousand Dollars and No Cents (US\$633,000.00).
 - d. Credit will thus equal Ninety-One Thousand Eight Hundred and Three (91,803) feet of installations in excess of one hundred (100) linear feet.
 - e. Credit may be applied towards installations scheduled for greater than 100 linear feet for a period of two (2) years from Projection Completion.
3. The Credit is available for any Consumer that has sought the Indiana Connectivity Program (“**ICP**”) grant.
4. County will inform Consumers of grants, timelines, and methods for seeking state funding. County will inform of the Credit availability for costs remaining after the dedication of state funding.
5. The Credit will be disbursed in a manner to reach maximum Consumers of broadband. Thus, the credit will be offered to Consumers in the following order:
 - a. Consumers with less than Three Hundred (300) linear installation feet who have been denied state ICP money.
 - b. Customers with installations of more than Three Hundred (300) linear feet and less than Five Hundred (500) linear feet who have obtained state ICP grant funds.
 - c. Customers with installations of more than Three Hundred (300) linear feet and less than Five Hundred (500) linear feet who have been denied state ICP money.
 - d. Customers with installations of more than Five Hundred (500) linear feet and less than Seven Hundred and Fifty (750) linear feet who have obtained state ICP grant

funds.

- e. Customers with installations of more than Five Hundred (500) linear feet and less than Seven Hundred and Fifty (750) linear feet who have been denied state ICP money.
 - f. Customers with installations of more than Seven Hundred and Fifty (750) linear feet and less than One Thousand (1000) linear feet who have obtained state ICP grant funds.
 - g. Customers with installations of more than Seven Hundred and Fifty (750) linear feet and less than One Thousand (1000) linear feet who have been denied state ICP money.
 - h. Customers with installations of more than One Thousand (1000) linear feet who have obtained state ICP grant funds.
 - i. Customers with installations of more than One Thousand (1000) linear feet who have been denied state ICP money.
 - j. Each group will be offered the opportunity and qualified in this order as the project construction progresses.
 - k. Fund will be first come first serve basis until the credit is exhausted, unless county chooses to add additional linear foot credits to the fund by paying Joink additional funds which will increase the credit amount at a rate of Fifteen Dollars (US\$15.00) per linear foot (e.g. Fifteen Thousand Dollars (\$15,000.00) = One Thousand (1000) additional linear feet).
6. This Exhibit may be modified by the Parties upon mutual agreement at any time.

FIBER MAINTENANCE AGREEMENT

THIS FIBER MAINTENANCE AGREEMENT (“FBA”) is made as of the date last signed below (the “Effective Date”), by and between Joink, LLC (“GRANTOR”), a Delaware limited liability company and Warren County (“GRANTEE”), an Indiana County Government. GRANTOR and GRANTEE are sometimes referred to herein as a “Party” or collectively as the “Parties”.

RECITALS

WHEREAS, a certain public private agreement was entered by and between GRANTOR and GRANTEE (the “PPA”) on July ____, 2023; and

WHEREAS, GRANTOR and GRANTEE confirm that pursuant to this FBA twelve (12) GRANTEE Fibers are owned by GRANTEE within the mainline portion of GRANTOR’s system that runs through substantial portions of Warren County, as more particularly shown in **Annex I**, attached hereto and incorporated by reference herein (“GRANTOR System”); and

WHEREAS, the parties agreed that GRANTOR shall perform all repairs and maintenance, including all splicing and any other activities on GRANTOR’s cable to make the GRANTEE Fibers usable by the GRANTEE, as more particularly outlined in **Annex II** attached hereto and incorporated by reference; and

WHEREAS, the purpose of this FBA is to document the Parties’ understandings relative to such repairs and maintenance including relocation obligations concerning the GRANTEE Fibers.

WHEREAS, if not otherwise defined herein, capitalized terms shall have the same meaning ascribed to them in the PPA.

Accordingly, in consideration of the mutual promises set forth below, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereby agree as follows:

TERMS AND CONDITIONS

1. Maintenance, Repair, Replacements and Relocations.

Throughout the Term, GRANTOR shall have the obligation, at its cost (i) to maintain and repair the GRANTOR System, including the GRANTEE Fibers, in accordance with the requirements and procedures described in Exhibit A and (ii) to replace or relocate such GRANTOR System and such GRANTEE Fibers, as necessary. The Parties shall cooperate, to the extent reasonably practical, to minimize any interference with use of the GRANTEE Fibers during any maintenance,

repair, replacement and relocation activities. A map of the location of the GRANTEE Fibers is attached hereto as Annex I.

2. Maintenance Fees

- a) GRANTEE shall pay GRANTOR an annual maintenance fee of Two Hundred Fifty Dollars and No Cents (US\$250.00) per nearest whole mile per year for Scheduled Maintenance ("Maintenance Fee"). This fee may be waived or pro-rated based on the terms of the PPA.
- b) GRANTOR shall only charge GRANTEE its pro-rata share of GRANTOR's Cost (based on fiber count) for Unscheduled Maintenance or Relocate events that exceed Five Thousand Dollars and No Cents (US\$5,000.00).
- c) GRANTOR shall invoice GRANTEE for all amounts due under this FBA. All invoices shall be due and payable within thirty (30) days of receipt by GRANTEE. When legal, GRANTOR reserves the right to apply a late charge equal to one and half percent (1.5%) per month (or the maximum legal rate, if less) on any unpaid balance. GRANTEE shall reimburse GRANTOR for all fees GRANTOR reasonably and actually incurs collecting any past due undisputed charges from GRANTEE including, but not limited to, attorneys' fees and collection fees.
- d) In January of each year, the Maintenance Fee shall be increased by three percent (3%).

3. Network Access Fees (New Connections)

(a) GRANTOR shall provide GRANTEE with access to the GRANTEE Fibers at each end of a segment within the GRANTOR System, and at all current and future splice points and slack storage locations. GRANTEE may access the GRANTEE Fibers by fiber stub taken from the GRANTOR System and delivered to GRANTEE at a fiber distribution panel, cable stub or splice case, as applicable. All the foregoing described connections are hereinafter collectively referred to as the "Connecting Points". Should construction be required to reach the ultimate desired termination point of the dark fiber, GRANTOR shall have the right of first refusal to perform such construction from the Connecting Point to the desired termination point for GRANTEE.

(b) All connections shall be performed by GRANTOR, in a reasonable amount of time in accordance with industry accepted practices. GRANTEE shall pay GRANTOR's actual costs to establish any Connecting Point. It is the responsibility of GRANTEE to obtain all governmental and other approvals and consents necessary to access and/or interconnect the GRANTEE Fibers with GRANTEE's System at a Connecting Point. For purposes of this FBA the term "Costs" shall be the sum of: (a) all actual costs paid or payable by GRANTOR including, without limitation, labor costs, pass through costs paid to third parties, and (b) an overhead allocation equal to fifteen percent (15%) of the sum of the costs set forth in (a).

(c) GRANTEE shall provide its own cable from the Connecting Points to GRANTEE'S system such that the only equipment of GRANTEE placed in GRANTOR handholes is cable. If other passive components are required, GRANTEE shall establish its own handhole nearby with its own splice case to house such other components.

4. Term

The term of this FBA shall be thirty (30) years commencing on the Effective Date of the PPA and shall automatically renew for successive five (5) year terms until GRANTEE has abandoned all of its fiber and notified GRANTOR of such abandonment. GRANTEE may elect, in writing, to terminate some or all of the route within a renewal term upon one hundred twenty (120) days written notification to GRANTOR, and GRANTEE will only be responsible for a prorated portion of the Maintenance Fee based upon the date of termination. Any fibers abandoned or in a route terminated by GRANTEE, in writing, shall irrevocably become the property of the GRANTOR.

5. Limitation of Liability

(a) Where lawful and notwithstanding any provision of this FBA to the contrary, neither party shall be liable to the other party for any special, incidental, indirect, punitive or consequential costs, liabilities or damages, whether foreseeable or not. Neither party shall be liable to the other to defend or indemnify a claim brought by a third-party for special, incidental, indirect, punitive or consequential costs, liabilities or damages, whether foreseeable or not.

6. Notices

All notices and other communications shall be given to GRANTOR at:

Columbus, Ohio 43215
Telephone: (614) 462-5033
Fax: (614) 462-5135
Email: christopher.miller@icemiller.com

Any such notice or other communication shall be deemed to be effective when actually received or refused. Either Party may by similar notice given change the address to which future notices or other communications shall be sent.

7. Default

(a) A default shall be deemed to have occurred under this FBA if, in the case of a material breach of this FBA, a Party fails to cure such material breach within thirty (30) days after notice specifying such breach, provided that if the breach is of a nature that cannot be cured within thirty (30) days, a default shall not have occurred so long as the breaching Party has commenced to cure within said time period and thereafter diligently pursues such cure to completion.

(b) The Parties acknowledge and agree that irreparable damage would occur in the event that any of the provisions of this FBA were not performed in accordance with their specific terms and agree that, due to the unique subject matter covered by this FBA, each Party shall be entitled to specific performance of the obligations hereunder, this being in addition to any other right or legal remedy available to such Party.

(c) Notwithstanding any other provision of this FBA, in the event, regardless of reason or GRANTOR's good faith attempts, GRANTOR does not or is unable to perform the services described in this FBA, or does not or is unable perform services in compliance with the standards and specifications set forth in this FBA, GRANTEE may (but is not obligated), upon written notice to GRANTOR reasonable under the circumstances but without authorization from GRANTOR, perform such services or work and/or take such action that it deems necessary without subjecting itself to any liability to GRANTOR. In such instances, GRANTEE may request GRANTOR to pay GRANTEE an amount equal to the actual costs of services performed by GRANTEE and less GRANTEE's proportionate share (based on fiber count). If GRANTEE requests payment, GRANTOR will remit payment to GRANTEE within thirty (30) days from the date of GRANTEE's invoice.

8. Force Majeure

Neither Party shall be in default under this FBA if and to the extent that any failure or delay in such Party's performance of one or more of its obligations hereunder is caused by any of the following conditions, and such Party's performance of such obligation or obligations shall be

excused and extended for and during the period of any such delay: act of God; fire; flood; government codes, ordinances, laws, rules, regulations or restrictions (collectively, "Regulations"); war or civil disorder; strikes or other labor disputes; or any other cause beyond the reasonable control of such Party. The Party claiming relief under this Section shall notify the other in writing of the existence of the event relied on and the cessation or termination of said event, and the Party claiming relief shall exercise reasonable commercial efforts to minimize the time of any such delay.

11. Representations, Warranties and Acknowledgments

Each Party represents and warrants that:

- (a) it has the full right and authority to enter into, execute, deliver and perform its obligations under this FBA;
- (b) this FBA constitutes a legal, valid and binding obligation enforceable against such Party in accordance with its terms, subject to bankruptcy, insolvency, creditors' rights and general equitable principles; and
- (c) its execution of and performance under this FBA shall not violate any applicable existing regulations, rules, statutes or court orders of any local, state or federal government agency, court or body.

EXCEPT AS SPECIFICALLY SET FORTH IN THIS FBA, NEITHER PARTY MAKES ANY WARRANTY, EXPRESS OR IMPLIED, WITH RESPECT TO ITS SYSTEM, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR PARTICULAR PURPOSE, AND ALL SUCH WARRANTIES ARE HEREBY EXPRESSLY DISCLAIMED.

12. Insurance

Joink, at its expense, shall, throughout the Term, maintain insurance coverages of the types and in the minimum amounts set forth below, as applicable:

Type of Insurance		Limit
General Liability (including contractual liability) written on an occurrence basis	General Aggregate	\$2,000,000
	Prod./Comp. Op. Agg.	\$2,000,000
	Personal & Adv. Injury	\$2,000,000
	Each Occurrence	\$2,000,000
Automobile Liability, including any auto, hired auto and non-owned autos	Combined Single Limit	\$2,000,000
Excess Liability, Umbrella Form	Each Occurrence	US\$5,000,000.00
	Aggregate	US\$5,000,000.00

Each of GRANTOR and GRANTEE shall name the other as an additional insured on such insurance.

13. General

(a) Binding Effect. This FBA and each of the Parties' respective rights and obligations under this FBA, shall be binding on and shall inure to the benefit of the parties hereto and each of their respective permitted successors and assigns.

(b) Waiver. The failure of either Party hereto to enforce any of the provisions of this FBA, or the waiver thereof in any instance, shall not be construed as a general waiver or relinquishment on its part of any such provision, but the same shall nevertheless be and remain in full force and effect.

(c) Governing Law. This FBA shall be governed by and construed in accordance with the domestic laws of the State of Indiana, without reference to its choice of law principles.

(d) Rules of Construction. The captions or headings in this FBA are strictly for convenience and shall not be considered in interpreting this FBA or as amplifying or limiting any of its content. Words in this FBA which import the singular connotation shall be interpreted as plural, and words which import the plural connotation shall be interpreted as singular, as the identity of the parties or objects referred to may require. Unless expressly defined herein, words having well known technical or trade meanings shall be so construed. All listing of items shall not be taken to be exclusive, but shall include other items, whether similar or dissimilar to those listed, as the context reasonably requires.

(e) Remedies Cumulative. Except as set forth to the contrary herein, any right or remedy of GRANTOR or GRANTEE shall be cumulative and without prejudice to any other right or remedy, whether contained herein or not.

(f) No Third-Party Rights. Nothing in this FBA is intended to provide any legal rights to anyone not an executing Party of this FBA.

(g) Jointly Drafted. This FBA has been fully negotiated between and jointly drafted by the Parties.

(h) Entire Agreement. This FBA constitutes the entire and final agreement and understanding between the Parties with respect to the subject matter hereof and supersedes all prior agreements relating to the subject matter hereof, which are of no further force or effect. The Exhibits referred to herein are integral parts hereof and are hereby made a part of this FBA. To the extent that any of the provisions of any Exhibit hereto are inconsistent with the express terms of this FBA, the terms of this FBA shall prevail. This FBA may only be modified or supplemented by an instrument in writing executed by each Party and delivered to the Party relying on the writing. The Parties agree that no earlier draft or drafts of this FBA shall be used for any purpose. To the extent this

FMA conflicts with the terms and conditions outlined in the PPA, the terms and conditions of the PPA shall supersede.

(i) No Personal Liability. Each action or claim against any Party arising under or relating to this FBA shall be made only against such Party as a corporation or company, and any liability relating thereto shall be enforceable only against the assets of such Party. No Party shall seek to pierce the corporate or company veil or otherwise seek to impose any liability relating to, or arising from, this FBA against any shareholder, employee, officer or director of the other Party. Each of such persons is an intended beneficiary of the mutual promises set forth in this Section and shall be entitled to enforce the obligations of this Section.

(j) Relationship of the Parties. The relationship between GRANTOR and GRANTEE shall not be that of partners, agents, or joint ventures for one another, and nothing contained in this FBA shall be deemed to constitute a partnership or agency agreement between them for any purposes, including, but not limited to federal income tax purposes. GRANTOR and GRANTEE, in performing any of their obligations hereunder, shall be independent contractors or independent parties and shall discharge their contractual obligations at their own risk subject, however, to the terms and conditions hereof.

(k) Severability. If any term, covenant or condition contained herein is, to any extent, held invalid or unenforceable in any respect under the laws governing this FBA, the remainder of this FBA shall not be affected thereby, and each term, covenant or condition of this FBA shall be valid and enforceable to the fullest extent permitted by law.

(l) Counterparts. This FBA may be executed in one or more counterparts, all of which taken together shall constitute one and the same instrument. The counterparts of this FBA may be executed and delivered by facsimile or other electronic signature by any of the parties to any other party and the receiving party may rely on the receipt of such document so executed and delivered by facsimile or other electronic means as if the original had been received.

(m) Compliance with Laws. Each Party's obligations under this FBA shall comply with all applicable legal and statutory requirements.

[Signature page immediately follows.]

[REST OF PAGE LEFT INTENTIONALLY BLANK.]

In confirmation of their consent and agreement to the terms and conditions contained in this FBA and intending to be legally bound hereby, the parties have executed this FBA as of the date first above written.

Annex II

MAINTENANCE AND REPAIR

Throughout the Term, GRANTOR shall have the obligation to maintain and repair the GRANTOR System and GRANTEE Fibers in accordance with the following requirements and procedures:

1. Maintenance.

(a) Scheduled Maintenance. Routine maintenance and repair of GRANTOR's System, as described in this section, ("Scheduled Maintenance") shall be performed by or under the direction of GRANTOR, at GRANTOR's reasonable discretion or at GRANTEE's request. Scheduled Maintenance shall include the following activities:

(i) Patrol of the GRANTOR's System on a regularly scheduled basis, in accordance with GRANTOR's then current procedures for maintenance;

(ii) GRANTOR will subscribe to each and all One-Call Agencies that affect one or more of the GRANTOR System's routes and will locate buried cables within the tolerances and time intervals required by each of the One-Call Agencies;

(iii) Assignment of fiber maintenance technicians based out of Terre Haute, Indiana.

(b) Unscheduled Maintenance. Non-routine maintenance and repair of GRANTOR's System, which is not included as Scheduled Maintenance, ("Unscheduled Maintenance"), shall be performed by or under the direction of GRANTOR. Unscheduled Maintenance shall consist of:

(i) "Emergency Unscheduled Maintenance" in response to an alarm identification by GRANTOR's Operations Center, notification by GRANTEE or notification by any third party of any failure, interruption or impairment in the operation of GRANTOR's System, or any event imminently likely to cause the failure, interruption or impairment in the operation of GRANTOR's System.

(ii) "Non-Emergency Unscheduled Maintenance" in response to any potential service-affecting situation to prevent any failure, interruption or impairment in the operation of GRANTOR's System.

(c) Relocation. GRANTEE acknowledges and agrees that GRANTOR may be required (i) by any governmental authority under the power of eminent domain or otherwise, (ii) by the grantor or provider of any underlying right, (iii) by any other person having the authority to so require, or (iv) by the occurrence of any Force Majeure Event, to relocate segments of the GRANTOR'S System.

GRANTEE shall immediately report the need for Unscheduled Maintenance to GRANTOR in accordance with procedures promulgated by GRANTOR from time to time. GRANTOR will log the time of GRANTEE's report, verify the problem and dispatch personnel immediately to take corrective action.

2. Operations Center.

GRANTOR shall operate and maintain a phone number that provides access to Joink staff twenty-four (24) hours a day, seven (7) days a week that are trained and qualified. GRANTOR's maintenance employees shall be available for dispatch twenty-four (24) hours a day, seven (7) days a week. GRANTOR shall have its first maintenance employee at the site requiring Emergency Unscheduled Maintenance activity within four (4) hours after the time GRANTOR becomes aware of an event requiring Emergency Unscheduled Maintenance, unless delayed by circumstances beyond the reasonable control of GRANTOR. GRANTOR's Operations Center personnel shall dispatch maintenance and repair personnel along the system to handle and repair problems detected in GRANTOR's System, (i) through GRANTEE's remote surveillance equipment and upon notification by GRANTEE to GRANTOR, or (ii) upon notification by a third party.

3. Cooperation and Coordination.

(a) GRANTEE shall utilize an Operations Escalation List, as updated from time to time, to report and seek immediate initial redress of exceptions noted in the performance of GRANTOR in meeting maintenance service objectives.

(b) In performing its services hereunder, GRANTOR shall take workmanlike care to prevent impairment to the signal continuity and performance of GRANTOR's System. The precautions to be taken by GRANTOR shall include notifications to GRANTEE. In addition, GRANTOR shall reasonably cooperate with GRANTEE in sharing information and analyzing the disturbances regarding the cable and/or fibers. In the event that any Scheduled or Unscheduled Maintenance hereunder requires a traffic roll or reconfiguration involving cable, fiber, electronic equipment, or regeneration or other facilities of GRANTEE, then GRANTEE shall, at GRANTOR's reasonable request, make such personnel of GRANTEE available as may be necessary in order to accomplish such maintenance, which personnel shall coordinate and cooperate with GRANTOR in performing such maintenance as required of GRANTOR hereunder.

(c) GRANTOR shall notify GRANTEE at least ten (10) business days prior to the date in connection with any Planned Service Work Period (PSWP) of any Scheduled Maintenance and as soon as possible after becoming aware of the need for Unscheduled Maintenance. GRANTEE shall have the right to be present during the performance of any Scheduled Maintenance or Unscheduled Maintenance so long as this requirement does not interfere with GRANTOR's ability to perform its obligations under this FBA. In the event that Scheduled Maintenance is canceled or delayed for whatever reason as previously notified,

GRANTOR shall notify GRANTEE at the GRANTOR's earliest opportunity, and will comply with the provisions of the previous sentence to reschedule any delayed activity.

4. Facilities.

(a) GRANTOR shall maintain its System in a manner which will permit GRANTEE's use, in accordance with the terms and conditions of the FBA, of the PPA, the GRANTEE Fibers and the Associated Property required to be provided under the terms of the FBA.

(b) Except to the extent otherwise expressly provided in the FBA, GRANTEE will be solely responsible for providing and paying for any and all maintenance of all electronic, optronic and other equipment, materials and facilities used by GRANTEE in connection with the operation of GRANTEE's Fibers, none of which is included in the maintenance services to be provided hereunder.

5. Cable/Fibers.

(a) GRANTOR shall perform appropriate Scheduled Maintenance on the cable contained in its System in accordance with GRANTOR's then current preventative maintenance procedures as reasonably agreed to by GRANTEE, which shall not substantially deviate from standard industry practice.

(b) GRANTOR shall maintain sufficient capability to teleconference with GRANTEE during an Emergency Unscheduled Maintenance in order to provide regular communications during the repair process. When correcting or repairing cable discontinuity or damage, including but not limited to in the event of Emergency Unscheduled Maintenance, GRANTOR shall use reasonable efforts to repair traffic-affecting discontinuity within four (4) hours after GRANTOR maintenance employee's arrival at the problem site. In order to accomplish such objective, it is acknowledged that the repairs so effected may be temporary in nature. In such event, within twenty-four (24) hours after completion of any such Emergency Unscheduled Maintenance, GRANTOR shall commence its planning for permanent repair, and thereafter promptly shall notify GRANTEE of such plans, and shall implement such permanent repair within an appropriate time thereafter. Restoration of open fibers on fiber strands not immediately required for service shall be completed on a mutually agreed-upon schedule. If the fiber is required for immediate service, the repair shall be scheduled for the next available PSWP. If maintenance activity is not timely performed under this FBA, GRANTEE shall have the right to step in and perform such activity, subject to underlying rights requirements.

(c) GRANTOR's representatives that are responsible for initial restoration of a cut cable shall carry on their vehicles the typically appropriate equipment that would enable a temporary splice, with the objective of restoring operating capability in as little time as possible. GRANTOR shall maintain and supply an inventory of spare cable in storage facilities supplied and maintained by GRANTOR at strategic locations to facilitate timely restoration.

6. Planned Service Work Period (PSWP).

Scheduled Maintenance which is reasonably expected to produce any signal discontinuity must be coordinated between the parties. Generally, this work should be scheduled after midnight and before 6:00 a.m. local time.

7. Restoration.

(a) GRANTOR shall respond to any interruption of service or a failure of GRANTEE's Fibers to operate (an "Outage") as quickly as possible (allowing for delays caused by circumstances beyond the reasonable control of GRANTOR) in accordance with the procedures set forth herein.

(b) When restoring a cut cable in GRANTOR's System, the parties agree to work together to restore all traffic as quickly as possible. GRANTOR, promptly upon arriving on the site of the cut, shall determine the course of action to be taken to restore the cable and shall begin restoration efforts.

(c) The goal of emergency restoration splicing shall be to restore service as quickly as possible. This may require the use of temporary cabling, temporary splicing, or even some type of mechanical splice, such as the "3M Fiber Lock" to complete the temporary restoration. Permanent restorations will take place as soon as possible after the temporary splice is complete.

8. Contracting.

GRANTOR may contract any of the maintenance services hereunder; provided that GRANTOR shall require the contractor(s) to perform in accordance with the requirement and procedures set forth herein.

9. Temporary Fibers

In the event all or any part of GRANTEE Fibers become defective, and GRANTOR is unable to repair the defective GRANTEE Fibers promptly, GRANTOR wherever reasonably possible, will provide GRANTEE with temporary Fibers along the applicable route in the same number as the defective GRANTEE Fibers while GRANTOR performs such repair and/or replacement functions outlined herein on the GRANTEE Fibers.

Exhibit L

EXHIBIT L

RIGHT OF CANCELLATION

This Right of Cancellation (this "Bill of Sale") is made as of _____, 20__ by and between Warren County and Joink, pursuant to that certain Public Private Agreement dated as of July __, 2023, by and between Warren County and Joink (the "PPA"). Capitalized terms used and not otherwise defined herein shall have the meanings given to them in the PPA.

WHEREAS, the PPA provides for, among other things, Warren County, electing to cancel the use of its dark fiber (Paragraph 19 of the PPA titled "**Fiber for County Use**") and to return the use of the dark fiber to Joink; and

WHEREAS, for that reason, or for any other, Warren County now desires to exercise its sole and irrevocable option to return such dark fibers back to Joink.

NOW, THEREFORE, in consideration of the mutual covenants contained herein and for the pre-determined and mutually agreed upon price of One Dollar and No Cents (US\$1.00), Warren County and Joink agree, to the extent allowed by applicable law, as follows:

1. Warren County hereby sells, assigns, grants, transfers, sets over, bargains, remises, releases and delivers to Joink, its successors and assigns, all of Warren County's right, title and interest in and to the Fiber for County Use, free and clear of all encumbrances.
2. Warren County hereby covenants it shall do, execute, and deliver any and all such further acts and instruments that Joink may reasonably request in order to more fully effectuate Warren County's sale and assignment of its Fiber for County Use to Joink and the vesting of title to such dark fiber as set forth herein.

In Witness Whereof, the undersigned have executed this Right of Cancellation as of the date first above written.
